HISTORICAL SKETCH

In 1867 Reverend S. C. Alexander and Reverend W. G. Miller saw the need for establishing an institution in this section and began devising such plans as would secure the desired results. On April 7, 1867, at a meeting of the Catawba Presbytery in the old Charlotte Presbyterian Church formerly located at the corner of D and Fourth Streets, Charlotte, North Carolina, the movement for the school was formally inaugurated and Reverends S. C. Alexander and W. G. Miller were elected as teachers.

Information concerning the establishment of the school was brought to the attention of Mrs. Mary D. Biddle, an excellent Christian woman of Philadelphia, Pennsylvania, through appeals on behalf of the work in one of the church papers and she pledged \$1,400 for the cause. In appreciation for this first and generous contribution, friends of the project requested of Mrs. Biddle the privilege of naming the newly established school after her late husband, Major Henry J. Biddle. The request was granted and the school was named "The Biddle Memorial Institute" and was later chartered by the State Legislature under that name. The first eight acres of land used as the site for the school were donated by Colonel W. R. Myers, a wealthy citizen of Charlotte, North Carolina. From 1867-1876 the school was known as the Biddle Memorial Institute. In 1877 the charter was changed by the Legislature of North Carolina and the name of the school became Biddle University. The institution operated under this name until 1923.

During the session of 1921-22 the late Mrs. Johnson C. Smith, of Pittsburgh, Pennsylvania, gave funds for the erection of a Theological Dormitory, a Science Hall, a Teachers' Cottage, and a Memorial Gate at Biddle University and in addition made provision for a handsome endowment for the institution in memory of her late husband, Mr. Johnson C. Smith. In recognition of these generous benefactions the Board of Trustees voted to change the name of the institution to Johnson C. Smith University. The charter of the school accordingly was so amended, March 1, 1923, by the Legislature of the State of North Carolina. After 1923 Mrs. Smith gave funds for the erection of five more buildings, including a church for the institution, before her death, October, 1929.

In 1925 the gifts of Mrs. Johnson C. Smith were augmented by a gift from Mr. James B. Duke, a multi-millionaire of Charlotte, North Carolina. This gave the institution an income from

about one and one-quarter millions. This gift of Mr. Duke to Johnson C. Smith University plus the substantial endowment made to the University by Mrs. Johnson C. Smith affords the institution unusual opportunities for larger and more varied service.

The present site contains 75 acres of land and twenty-two buildings.

In 1932 Barber-Scotia College of Concord, North Carolina, was affiliated with Johnson C. Smith University and became one of the undergraduate Junior College divisions.

The institution is under the auspices of the Presbyterian Church in the United States of America. Although the school is denominational it is not sectarian.

PURPOSE AND OBJECTIVES OF THE INSTITUTION

Johnson C. Smith University is a Christian institution. Its purpose is to offer the students who come to it the best intellectual opportunities that can be afforded. It believes that the only genuine education is that which places emphasis upon spiritual values. To this end the institution seeks to develop in the student those qualities that make for the highest type of citizenship. The institution seeks to develop in the student the proper attitude toward life and to enable him to realize his place in society. Such courses are offered as will enable him to understand and appreciate the world in which he lives and the opportunities that it offers for service.

The institution seeks to accomplish the following objectives: to prepare men for effective leadership in the important pursuits of life; to develop the moral character and religious life of the student; to stimulate an intellectual desire for truth; to create a desire for the highest degree of efficiency in the profession chosen as his life's work; to prepare young men for Christian service such as the ministry, and other forms of religious work; to prepare young men for service as teachers; to give the students a background for later professional work, such as medicine, law and other specialized vocations.

The programs of study are planned so as to lend aid to the achievement of these objectives.

GENERAL INFORMATION

Location

JOHNSON C. SMITH UNIVERSITY is in the City of Charlotte, North Carolina. The campus of seventy-five acres comprises the highest elevation in the city. From the University Hill there is a clear and distinct view of the many buildings in the city.

Organization

The University is composed of a College of Liberal Arts which confers the degrees of Bachelor of Arts and Bachelor of Science respectively; the Barber-Scotia Junior College, Concord, N. C., for young women, and a Theological Seminary, which confers the degree of Bachelor of Theology.

Co-Education

The Senior College division of the College of Liberal Arts has been made co-educational. For the session beginning 1932 students who are graduates of Barber-Scotia and students whose parents or guardians reside in the city, will be admitted and these will be required to room and board on the College Campus.

How to Enter

Before coming to Charlotte, a prospective student desiring to enter the University should invariably write to the Registrar, stating clearly what studies he has completed and what courses of study he desires to take. Failure to comply with this generally involves a great deal of difficulty. The Registrar will then send him a blank form for a certificate of his record by the authorities of the school he last attended.

From the Southern Railway Station the campus is conveniently reached by any car going west on the Southern Public Utilities Company's line.

On arriving at the University students will report at the Registrar's office in the Main Building on the University campus.

Buildings and Grounds

The University buildings are all located on the main campus. They are steam heated and are lighted by electricity, and are

completely furnished. They are in charge of a Superintendent of Buildings and pains are taken to keep them always in a sanitary condition.

The Main Building

The Main Building, known as Biddle Memorial Hall, can be seen from almost any section of the city. It is four stories in height, with a tower in which is the chime clock. From this tower a fine view of the city and district can be had. It contains recitation and lecture rooms, together with the offices of the President and Treasurer, the Dean of the Theological School, the Dean of the College, the Registrar, and the Business Manager, respectively.

Johnson C. Smith Memorial Theological Dormitory

This dormitory stands on the eastern side of the campus and is three stories high. It supplies rooms for about eighty students. It was named for Mr. Johnson C. Smith of Pittsburgh, Pa., the late husband of the late benefactress of the University.

Berry Hall

Berry Hall, a dormitory for college men, stands at the northern end of the campus. It is three stories in height above a basement story. It has a reception parlor and houses about one hundred students. This dormitory was given in memory of the late Mrs. Smith's parents.

Carter Hall

Carter Hall, a dormitory for college students, is situated at the northeastern end of the University Quadrangle. It is, perhaps, one of the most substantial buildings on the campus, has a large reception parlor, and houses about one hundred and fifty students. This building is the gift of Miss Carter of Geneva, N. Y.

Science Hall

The Science Hall is situated at the southern end of the University campus; it is two stories high with a basement story. It is fully equipped, and contains lecture rooms as well as rooms for experimental work in Chemistry, Biology, and Physics.

Carnegie Library

The Library is a one-story building with a basement story, well lighted and thoroughly furnished.

There are about twenty thousand volumes now on the shelves of the Library, and the number is being rapidly increased by purchase and by the gifts of generous friends. In the spacious reading room is a large number of newspapers, secular and religious, and many of the best magazines of the country.

Excellent care was exercised in the selection, arrangement and classification of the books of the Library which is operated according to the latest method of library management.

In addition to the book and reading rooms, the Library affords space for store rooms and a book room. The facilities for heating this building, and, in fact, the entire equipment, is strictly modern.

The University Church

The University Church is a gift of the late Mrs. Johnson C. Smith. The structure is 125x47 and is built of colonial brick with limestone trimming. The front is supported with limestone columns. The building is located near the entrance to the campus. It has beautiful memorial glass windows and a large Hook and Hasting Pipe Organ with Cathedral chimes. The seating capacity is 800. The structure is one of the most beautiful of its kind to be found at any college in America.

Y. M. C. A. Hall

The College Branch of the Y. M. C. A. occupies a large room in the basement story of the Biddle Memorial Hall. The hall is well equipped and a small cafeteria is maintained under the management of the Y. M. C. A. Cabinet.

University Dining Hall

This is a new building situated at the northern end of the University. It has a seating capacity of about four hundred. It is equipped on the sides with large casement windows. Extending from one end of the Dining Hall is a service wing containing a pantry and kitchen of modern arrangement and equipment. The building is constructed throughout of brick and concrete. The exterior is of red brick of rough texture, and

the floor is of concrete. It is steam heated and electrically lighted throughout.

The Hartley Woods Gymnasium

The Gymnasium is the gift of the late Mrs. Johnson C. Smith who has been very liberal to the University. It is situated at the northern end of the University Quadrangle.

It is a two-story brick building with a 100-foot frontage. The first floor contains the office of the Physical Director, physical examination rooms, the gymnasium proper, and a dormitory room for the housing of visiting athletic teams. The second floor or gallery floor contains the running track—twenty-two laps to the mile—and seating space for spectators at basketball games. The basement floor contains the locker rooms, the showers, wrestling and boxing room, and an athletic storeroom.

The size of the Gymnasium is 101x52. It has a court for indoor tennis, baseball, volley ball, hand ball and basketball. It is furnished with equipment for work in physical training.

The University Press

The institution possesses a modern printing plant. The equipment includes a linotype machine, job press, a two-revolution Lee press, newspaper folder, cutting machine, and an excellent assortment of hand type. The plant is equipped to do almost any kind of printing.

EXTRA-CURRICULA ACTIVITIES

Student Societies

The University maintains several literary societies and other clubs, which, through exercises, debates, contests and dramas, provide a training of very great importance to the student. These societies have school courts connected with them, are governed by laws enacted by their members, and are presided over by officers elected by their members.

Rho Omicron Sigma (the Smith Debaters' Club) is composed of undergraduate members, its purpose being to foster debate and to develop ready speakers.

The Smith Players are composed of members of the College of Arts and Sciences. This organization, which is under the supervision of the Department of English, is doing a splendid work, and presents periodically a series of plays staged entirely by the students.

The Glee Club is an organization under special training for the general musical activities of the University.

The Christian Leadership Preparatory Club is composed of students in the College of Arts and Sciences, who plan to go into the ministry and other forms of religious services.

The Young Men's Christian Association promotes the religious life among the students. In addition to various religious services conducted under its auspices, an Open Forum is held each Friday evening at which time various topics of interest are discussed.

DEPARTMENTAL CLUBS

The English Philological Society aims to instill the love of good literature among the members of the student body, and to exercise the critical faculties of English students in the understanding and evaluation of literary productions. Full membership is open to all students of Junior rank who are majoring or minoring in English. The fortnightly meetings are devoted largely to reports of studies and discussions, particularly in the field of contemporary literature.

Le Cercle Francais meets periodically during the academic year. Discussions and reports are all conducted in French. All students who are taking either a major or a minor in French are required to attend. Attendance is also required of all students registered for advanced courses.

The Mathematics Club. The primary function of this organization is to foster an interest in higher mathematics and related topics. Activities consist of papers, reports of investigations, open discussion, field projects and group problems. Membership is open to students who have had one year of Mathematics. Meetings are held fortnightly.

The Science Club is composed of students who have shown especial interest and ability and are majoring in one of the sciences. The purpose of the club is to foster an interest in the sciences, and in research, and to arrange scientific lectures.

HONOR SOCIETIES

Alpha Kappa Sigma

This is an honor society for those who have attained high scholastic honors in their academic work. The purpose of the society is to bind together those students who have shown them-

selves particularly proficient in an endeavor to broaden their interests and knowledge as well as to make it possible to carry their several interests through the University at large.

Beta Kappa Chi

Beta Kappa Chi honor society is composed of honor students majoring in Science. The society has as its objective the development of interest in science and research. In addition, prominent men of science are presented to the student body.

Athletics

Athletic sports are permitted and encouraged within certain prescribed limits, chiefly for the following reasons: first, they provide wholesome recreation; second, they give healthful exercise in the open air. Growing youth naturally seek recreation of some kind. This recreation should be something radically different from their sedentary habits of study, and should contribute directly to their well-being. The faculty maintains supervision over the athletics in order that it may be assured that the various sports are conducted on a high and clean basis, and that they are not indulged in to the extent that studies or duties are neglected.

The Athletic Board of Control, under the direction of which games of baseball, football, basketball, and tennis are played, is a member of the North Carolina Inter-Collegiate Athletic Association, and the C. I. A. A., organizations that have done much to establish and maintain high standards in athletics.

Students who take part in athletics must maintain a satisfactory standard in their classes at all times. Students reported doing unsatisfactory work in any one subject automatically become ineligible to participate in intercollegiate sports.

Fraternities

The following fraternities have chapters at the University: Omega Psi Phi, the Alpha Phi Alpha, the Kappa Alpha Psi, and the Phi Beta Sigma.

Student Self-Help

Although the University offers a number of places for students to earn, in some measure, their way in college, most of these positions are engaged beforehand by those who have al-

ready attended the University. Candidates for the ministry and young men of promise will receive such aid as their necessities and the resources at command will allow.

Religion and Morals

The University is strictly Christian in its work and in its spirit. While it is under the Presbyterian Board, there is no restriction placed on the admission of students of other faiths. In fact, its students are drawn from almost all faiths. Daily devotional exercises are conducted in the chapel. Wednesday night prayer meeting, Sunday morning services, and Sunday vespers are conducted in the University Church.

The College Branch of the Young Men's Christian Association is in successful operation with a large membership. It is earnestly desired that all students identify themselves with this noble work.

There are two broad requirements made of students—these are good scholarship and courteous conduct. Beyond these, there are a few specific regulations found in the Student Manual. The Manual is furnished each accepted applicant.

Students are largely put on their own honor respecting the maintenance of the proper standards of scholarship and the observance of those courtesies due fellow students and instructors. Students who are not disposed to comply with these demands will be invited to withdraw from the school or will be suspended whenever the general welfare of the school demands it.

The faculty reserves the right to enact at any time any measure or regulation that circumstances may require.

Health and Physical Education

The health of students in the University is given special consideration. All students are required to undergo a thorough physical examination by the College Physician before registration each semester. Any student may be required to undergo additional physical examination according to the judgment of the College Physician, and any student may secure other physical examinations on conference with the College Physician. The physician will give such advice regarding exercise, athletic games, personal habits, etc., based on his examination, as he deems proper.

A medical fee is collected from all students, and entitles each student to free treatment for ordinary cases of sickness or accident. The student must purchase all medicines, and in case of injury or accident, all bandages or appliances other than those of an inexpensive nature. Consultation with, or treatment by, physicians other than the College Physician and extra nursing are at the expense of the student. In case of sudden need, with no time to notify parents, the College will call in expert assistance if it is considered in the interest of the student. Unless the parents agree to be responsible for the expense entailed they must notify the authorities when their son enters that this must not be done.

The student is advised to consult the College Physician freely on all matters pertaining to his health. Reports of sickness as excuse for inattention to duty will not be accepted unless certified to in the report of the College Physician.

In order to fulfill the requirements for the B.S. and A.B. degrees, respectively, all Freshmen and Sophomores will be required to attend the courses in Physical Education. Those who are designated by the University Physician as possessing organic and orthopedic defects will be assigned to special classes by the instructor in charge.

All students in the Department of Physical Education will be required to deposit in the College Treasurer's office the sum of one dollar and fifty cents for the use of the gymnasium locker and key, etc. At the close of each year and with the return of the locker key, fifty cents of this sum will be refunded to the student.

SCHOLARSHIPS AND PRIZES

Friends in Scotland have established a fund of six thousand dollars, the interest of which is to be used to aid young men in preparing for mission work in Africa. Should any beneficiary of these funds marry before completing his course of study, thereupon his aid will be forfeited; nor will anyone be aided who uses tobacco in any form.

P. W. Russell Prize in Hebrew.

This is a prize of five dollars in gold offered to that member of the Junior Theological Class making the highest per cent above ninety for the year.

The Alumni prize is a gold medal offered to the Junior College Class by the Alumni Association for excellence in oratory.

S. A. Downer prize is awarded to the student who achieves the highest degree of excellency in Old Testament History.

Byrd Smith prize is offered for excellency in Science.

EXTENSION COURSE

In connection with the Department of Education, Extension Courses are offered for the benefit of teachers of the City of Charlotte, Mecklenburg and Gaston Counties. The courses offered are similar to those of the University. Courses are open to all teachers holding Elementary "B" certificates and above. See page 99.

EVENING CLASSES

The College offers evening academic classes. These courses are open to high school graduates or mature students who wish to further their education and find it impossible to attend classes in the daytime. For further information write to the Registrar. See page 99.

EXPENSES

The following list of expenses includes the various items for which charge is made by the University, but it does not include such items as laundry and general expenses of a miscellaneous character, all of which are variable and are more or less determined by the student himself. Laundry of wearing apparel and similar personal expenses will range from two dollars to four dollars per month.

All bills for the semester are due and payable monthly in advance. Remittances should be made to the University. Payment, if not made in cash, must be made by money order, draft, or certified checks, payable to the order of Johnson C. Smith University.

No part of the remittances made to the University will be handed to the student except at the request of the person making the remittance.

For one semester's fee and for one month's board and lodging the student should have at least \$100.00.

Students should be provided with sufficient funds to pay all expenses at the time of registration.

When a student has been duly registered and accepted in the University it is considered a formal and explicit contract for the year and should a student withdraw from the University at any time after registration no refund of fees will be granted at all except in cases where the student withdraws on account of personal illness, in which case a certificate from the Physician will be required.

For such cases refunds will be made at the rate of 75 per cent for the first 15 days and not exceeding 50 per cent for the second 15 days after registration.

No deductions for any cause will be allowed to students who withdraw during the last four weeks of a semester.

Board, including meals, furnished rooms, light, heat, and laundry of bed linen, is eighteen dollars per calendar month, payable in advance.

Boarding students are not received for less than one month and no deduction for absence can be made unless ordered by the Treasurer. Under University regulations students remaining in arrears to the institution for more than ten days are subject to suspension from all student privileges unless satisfactory arrangements have been made otherwise.

Wholesome and substantial table board is furnished in the University Dining Hall to all students except day students. No student is allowed to board himself in his room.

A room deposit of fifty cents to insure care of furniture and the safe return of the key is required.

Four dormitories furnish lodging to all boarding students. These are Carter Hall, Berry Hall, the Johnson C. Smith Memorial Theological Dormitory, and a dormitory for women. As far as is necessary, rooms in the Theological Dormitory are reserved for Theological students and students above the Sophomore Class. These rooms are steam heated and electrically lighted.

Old students may have their rooms reserved by sending to the Treasurer money order, cash, or certified check for \$10.00 not later than August 1st. This amount will be credited to his account when he registers. Any such student who does not register before the expiration of the time limit for registration forfeits his deposit. The incidental fee required of all students is allowed as follows: Athletic Fee, \$5.00 a semester; Lecture Fee, \$1.25 a semester; Registration Fee, \$1.00; Library Fee, \$1.50 a semester; Medical Fee, \$3.00; Student Paper Fee, \$1.00; Y. M. C. A. Fee, \$1.00.

There is no special deposit for courses in Chemistry, Physics, or Biology, but the student will be charged for breakage in any laboratory.

All graduates and undergraduates of the University are entitled to one transcript of credits free of charge. For each additional transcript a fee of \$1.00 will be charged.

Students graduating from the University are required to pay in advance a graduating fee of five dollars.

THE COLLEGE

The College Year

The College year begins the third Wednesday in September and closes the first Wednesday in June. It consists of one session of thirty-six weeks exclusive of holidays and is divided into two semesters of eighteen weeks each.

Registration

All students must register at the beginning of each semester whether they were in residence the preceding semester or not.

Students are required to register in person at the University on the days designated for such purpose, between 8:00 o'clock in the morning and 5:00 o'clock in the afternoon.

All new students are required to register for the first semester on the Monday before the third Wednesday in September. Old students will register on the third Wednesday in September.

Any student failing to register on the days appointed for registration may do so on the payment of a late registration fee of one dollar (\$1.00) for each day late.

No student will be allowed to register in the first semester after the end of the fourth scholastic day immediately following the days appointed for registration, and no student will be allowed to register in the second semester after the end of the third day immediately following the days appointed for registration. No student will be allowed to register in any semester until he has paid all bills of the previous semester.

Subjects and Units Accepted for Admission

No subjects will be accepted for College admission that are not counted for graduation by the High School.

Duplication of high school and college credits is not permitted. Courses credited for admission cannot be repeated in the College for credit toward graduation.

Applicants for admission to the Freshman Class must present fifteen units of secondary work.

Of the fifteen units necessary for entrance, seven are required as follows:

English (Four Years' Work)---	3	Science -----	1
Algebra -----	1	Plane Geometry -----	1
History -----	1		

The remaining eight units may be chosen from the following subjects:

Foreign Languages -----	5	Drawing -----	1½
Agriculture -----	1	Economics -----	1½
Botany -----	1	Solid Geometry -----	1½
Chemistry -----	1	Algebra -----	1
Physics -----	1	Trigonometry -----	1½
Physical Geography -----	1½	Civics -----	1½
Commercial Geography -----	1½	Physiology -----	1½
Shop Work -----	1½	History -----	1

A student must complete at least two years of study in a foreign language in order to obtain credit towards College entrance.

Students who present no entrance units in Foreign Language must complete two years of work in College.

If Sciences are offered a notebook must be presented, otherwise only half-unit will be granted.

Note: No students are accepted for admission to the Freshman Class with any conditions at all.

The Entrance Unit

A unit in any subject signifies five sixty-minute recitations a week for a period of thirty-six weeks, and represents a year's study, constituting approximately a quarter of a full year's work in a secondary school.

The four-year High School course is taken as a basis, and the length of the school year is assumed to be from thirty-six to forty weeks; a period from forty to sixty minutes in length and a study pursued for four or five periods a week. Under ordinary circumstances, a satisfactory year's work in any subject cannot be accomplished in less than one hundred and twenty sixty-minute periods or their equivalent. Schools organized on any other than a four-year basis can, nevertheless, estimate their work in terms of this unit.

Methods of Admission

There are three methods of admission to the Freshman Class.

I—Admission by Certificate

The University will admit by certificate graduates of secondary schools accredited by the various Rating Boards and Associations of the United States.

These certificates should be presented before the student comes to the University, so that the applicant's eligibility may be determined in advance.

The University may accept a student provisionally without transcript, but if it does not arrive within one month after the beginning of the semester, he will be required to submit to entrance examinations; should a student fail to prove his eligibility by these examinations or by a certificate arriving at the University before the expiration of the time limit, his registration is immediately cancelled.

II—Entrance Examinations Conducted by the University

An applicant who does not come from an accredited secondary school or does not present a certificate from the College Entrance Examination Board will be examined in all subjects offered for admission.

Before taking any examination conducted by the University, an applicant must make written application to the Registrar upon blanks provided for the purpose, and must secure a card admitting him to the examination. This may be done by correspondence, but the application must be received not later than one week before the date of the examination. Entrance examinations are conducted on Monday immediately preceding the third Wednesday in September.

III—Entrance Examinations Conducted by the College Entrance Examination Board

Entrance examinations conducted by the College Entrance Examination Board are accepted in place of the entrance examinations conducted by Johnson C. Smith University, provided they are passed with a grade of at least sixty per cent. The examinations are held once a year beginning on the third Monday in June. In 1933 they will be given June 19-23. The application for examination should be addressed to the Secretary of the College Entrance Examination Board, 431 West 117th Street, New York, N. Y. The blank form for this application will be mailed to any candidate upon request. A

specimen of the candidate's handwriting will form a necessary part of the application.

If the application is received sufficiently early, the examination fee will be \$10.00 for each candidate whether examined in the United States, Canada, or elsewhere. The fee, which must accompany the application, should be remitted by postal order, express order or draft on New York to the order of the College Entrance Examination Board.

The applications and fees of candidates who wish to be examined outside of the United States and Canada must reach the Secretary of the Board at least six weeks in advance of the first day of examination, that is, on or before Monday, May 8, 1933.

Detailed information of the requirements in all examination subjects are given in a circular of information published annually by the College Entrance Examination Board, 431 W. 117th Street, New York, N. Y.

Admission to Advanced Standing

Students who come to Johnson C. Smith University from colleges or universities of similar or equal standing are given advanced standing on the basis of work done. Credit will be given for such professional work as falls within the fields of specialization offered in Johnson C. Smith University. Courses that are identical with those offered in this University are usually given full credit; courses that are different are evaluated on their own merit in the light of their conformity with the program of study outlined in the curricula of the College.

In the event that a student admitted to advanced standing fails to show ability to do creditably the work of the class to which he has been admitted, he will be withdrawn from that class and placed in a lower one.

Candidates seeking admission to advanced standing should present credentials from the school or schools attended. These credentials should reach the office of the Registrar before the applicant arrives at the University.

Special Students

Mature persons who desire to pursue some special subjects, and who have had requisite preliminary training, are allowed to enter the various courses of the University without becoming candidates for degrees. These students are subject to the same rules and regulations as the regular students.

Freshman Week

The first three days of the school year are devoted especially to the adjustment of the Freshmen to their new surroundings. The program includes registration, orientation, lectures, tests for diagnosis and guidance, training in the use of the Library, definite information on the various regulations of the campus, and the opening reception.

THE CURRICULUM

The programs of study of the College curriculum are so planned that during the first two years of the College course the student will pursue courses that are intended primarily to enable him to lay a broad foundation for later specialization. The courses are planned so as to continue and supplement the high school curriculum. They consist of survey courses in varied fields and are designed to give the student a rich background in general culture. Accordingly the programs of study are divided into lower and upper divisional courses or into Junior and Senior College curricula.

Junior College Division

The course of study for the Freshman and Sophomore years is nearly uniform. The prescribed subjects include certain courses of fundamental educational value.

COURSE OF STUDY FOR JUNIOR COLLEGE DIVISION FRESHMAN YEAR

	Hrs.	credit
Religion 121-122	4	
English 131-132	6	
Foreign Language 131-132	6	
Chemistry, Biology, or Physics 241-242	8	
Mathematics 131-132	6	
Education 111—Freshman Lectures (Required.).....	1	
Physical Education	(Required. No credit hours)	

SOPHOMORE YEAR

	Hrs.	credit
English 231-232	6	
Psychology 231	3	
Religion 221-222	4	
History 231	3	
Music 221	2	
Electives	14	
Physical Education	(Required. No credit hours)	

Foreign Language Requirement

Two college years in one foreign language are required for graduation, except in the cases of students who present no entrance units in Foreign Language. Two years of high school language are considered the equivalent of one year of college language.

The Senior College Division

In the Junior and Senior years the student will center his attention in his selected field of concentration. He must elect a minimum of 36 hours in one or two subjects in the Junior and Senior years. Subjects are arranged under four divisions as follows:

I.—Language and Literature—English, French, German, Greek, Latin, Spanish.

II.—The Social Sciences—Economics, History, Political Science, Sociology.

III.—Mathematics and the Physical and Natural Sciences—Biology, Chemistry, Mathematics, Physics.

IV.—Philosophy—Education, Music, Philosophy, Psychology, Religion.

Students may concentrate in any one of the divisions listed above and may major in the following subjects: Biology, English, French, Latin, Chemistry, Mathematics, History, Sociology, Economics, Philosophy, Psychology, and Education.

Students majoring in one natural science may count the combined credit in the remaining natural sciences (Biology, Physics or Chemistry), for a minor in Science. The requirements for a minor in a particular science will remain as outlined.

Those who plan to obtain a major in Science will find it highly advisable to begin a course in one of the sciences in the Freshman year and continue throughout the four years.

A maximum of 80 semester hours may be taken in one of the above divisions and not more than 40 hours in any one subject. The requirement for a major in each subject will be found in the departmental statements under courses of instruction.

PRE-VOCATIONAL COURSES

Opportunity is offered at Johnson C. Smith University to prepare for entrance to the best professional and vocational schools. In view of the fact these institutions are coming to require college graduation for entrance, the faculty of Johnson C. Smith University does not encourage the shortening of the four-year course.

Medicine

Students preparing for a course in medicine should take the equivalent of majors in Biology and Chemistry and minors in English, German, or French and Philosophy. A year's work in Physics is essential. The work in Biology should include General Biology, Comparative Anatomy, and Embryology. The work in Chemistry should include General Chemistry, Qualitative and Quantitative Analysis, and Organic Chemistry.

Law

Students who plan to enter law schools are advised to concentrate in Division II, and major in History or Economics and Sociology and to elect work in Political Science, English Literature, Philosophy and Latin.

Business

A number of college graduates enter business life. The Department of Economics offers work which is basic to a business career. The student should also include Sociology, History and Political Science in the course of study.

Theology

Preparation for the ministry and all forms of religious leadership demand thorough grounding in the arts and humanities. Hence a pre-theological course should include courses in English Composition and Literature, History, Economics, English Bible, and Sociology, Philosophy (including Ethics), and Psychology, Principles of Education, and, at least one Laboratory Science, Biology or Chemistry, and Mathematics.

A reading knowledge of Latin, Greek, and German should be acquired.

Technical Profession

Students who are preparing for technical and engineering courses should concentrate in Division III, and major in Mathematics and Physics.

Teaching

The North Carolina State Board of Education requires professional study for those who expect to engage in teaching in the public schools of North Carolina. The following professional requirements are common to all certificates: 1. Educational Psychology 3 semester hours. 2. Principles of High School Teaching or Problems in Secondary Education 3 semester hours. 3. Materials and Methods (two fields) 6 semester hours. 4. Observation and Directed Teaching 3 semester hours. 5. Electives 6 semester hours. High school teachers will be authorized to teach only the subjects for which they have made definite preparation. The subjects for which certification is granted will appear on the face of the certificate. Persons are expected to meet the requirements in two or more teaching fields. Students who plan to teach should consult the head of the Department of Education or the Dean as to the subject-matter requirements for the teaching of the different subjects.

Agriculture

Students interested in agriculture should take a thorough training in Biology, Chemistry, and Physics. A general knowledge of these subjects is essential to a clear understanding of scientific farming.

Library Work

For general library work the most important subjects are Literature, History, Social Science, and Language, especially the modern languages. In these subjects the most essential subjects are: English, French, and German Literature; European, English, and American History; American Government; Political Economy; and at least a year of Science.

DEGREES OFFERED

The College administers four years of work leading to the degrees Bachelor of Arts (A.B.) and Bachelor of Science (B.S.) respectively.

Graduation

A candidate for the Bachelor's degree must present in all 128 semester hours and 128 quality points. He must fulfill to the satisfaction of the faculty all the requirements of the Junior and Senior College curricula. He must have been a student in the College during his Senior year and have completed in residence at least 32 of the 128 semester hours required for the degree.

EXAMINATIONS

Examinations are held at the close of each semester. These examinations are required of all students. Any student who does not present himself for examination at the hour appointed forfeits his right to take that examination and will be considered as having failed, unless he has been excused for reasons deemed sufficient by the faculty.

Special Examinations

Special examinations are given to students who for adequate reasons have not been able to be present at the regular examinations. The privilege of special examination is granted by the Dean on recommendation of the instructor.

The student is charged a fee of \$1.00 for each special examination. A receipt from the Treasurer showing that this fee has been paid must be presented to the instructor before the examination is given.

SCHOLARSHIP GRADES

The quality of a student's work in a course shall be reported to the Registrar by the following grades: A, B, C, D, F, and I. A denotes excellent scholarship; B, good; C, fair; D, poor. Work reported as of grade D cannot be raised to a higher grade by examination. F indicates failure; a student receiving such a grade must repeat the course when next such a course is offered. A grade of I indicates that the course is incomplete; work reported incomplete at the end of any semester and not made up by the beginning of the corresponding semester of the following year can be given credit only by repetition in class.

A student will not be permitted to remain in the University in the second semester unless he passes without condition as

much as six semester hours of work in the first semester; he will not be permitted to re-enter in September if he did not pass without condition at least twenty semester hours of work in the previous year. Such a student may not register again in the University without special permission of the faculty.

Courses with grades A, B, C, and D, may be counted towards a degree, but not more than six semester courses on each of which an average grade of D has been made shall count as credit towards a degree unless the student has made an average grade of "C" or more in all of his work.

For determining scholarship and for awarding honors the following system of point values corresponding to the above grades is used: A, 3 points for each semester hour of credit; B, 2; C, 1; D, 0; F, 0. The academic grades required for graduation must yield at least 128 grade points.

CLASSIFICATION OF STUDENTS

Students in the College are grouped into four classes according to the records in the Registrar's office. The basis for this classification is as follows:

Seniors—Students who have credit for at least ninety-six (96) semester hours of work, have earned at least 96 quality points, and have completed all the prescribed courses.

Juniors—Students who have to their credit at least sixty-four (64) semester hours of work, have earned at least 60 quality points, and have completed courses prescribed for the first year.

Sophomores—Students who have credit for at least thirty-two (32) semester hours of work and have earned at least 25 quality points.

Freshmen—All other students, not registered special, are ranked as Freshmen, without regard to date of admission.

CLASS HONORS

Class honors are awarded annually at the end of the college year to members of the four college classes who have earned a high average standing for scholarship in all the courses for which they are enrolled.

The requirements for class honors are as follows: To be classified as first honor student a Freshman must earn an average of 2.00, Sophomores 2.30, Juniors 2.40, Seniors 2.50.

In addition to the above requirements, students must be registered for at least 15 hours of work. Physical Education does not count in determining quality points.

DEGREES WITH DISTINCTION

To be graduated CUM LAUDE—A student must have spent at least two years in residence at the College and have earned an average of 2.00 to 2.49.

To be graduated MAGNA CUM LAUDE—A student must have spent three years in residence at the College and have earned an average of 2.5 to 2.69, and no grade must be below "C."

To be graduated SUMMA CUM LAUDE—A student must have spent at least three years in residence at the College and have earned an average of 2.7 to 3, and no grade must be below "C."

Grades in Physical Education are not considered in determining honors.

AMOUNT OF CREDIT EACH SEMESTER

(a) A normal load for a student in the College of Arts is sixteen (16) hours.

(b) Only students who have at least a general average of "B" will be permitted to carry excess hours, and in no case will a student be permitted to carry in a semester more than nineteen (19) hours of work.

(c) Only students who have been carrying a normal load of work (sixteen hours) in the previous semester will be permitted to carry any excess hours.

The maximum amount of credit allowed for one semester is nineteen (19) semester hours, exclusive of Physical Education. If courses intended primarily for Freshmen are elected by Juniors or Seniors 4 semester credits normally count as 3, and 3 semester credits as 2.

CHANGES IN REGISTRATION

Changes in registration must be made through the Registrar's office on blanks provided for that purpose. For any such changes the student must obtain the permission of the Dean and the instructors concerned.

No student will be allowed to make a change in his schedule of courses during a semester and after the expiration of the time allowed, without the written consent of the Dean and the instructors concerned. No student will be allowed to change his program of studies after the end of the second week of any semester unless such change is unavoidable or is necessitated by a change in the University schedule. A course once regis-

tered for may not be dropped without permission of the Dean. A course dropped without permission is considered as a failure and is so recorded.

ABSENCE FROM CLASSES

All absences begin when classes start.

Regular and punctual attendance on recitations is required of all students. Absences must be explained to the Dean of the College.

Daily report of all absences of students from classes must be made by each instructor and filed in the office of the Dean.

All absences excused or unexcused shall be made up to the satisfaction of the department concerned.

Any student who has been absent from fifteen per cent of the exercises to be held in a course, whether the absences are excused or unexcused, shall be debarred automatically from final examination in that subject. Students who have been excused by the President, Dean or faculty will not come under this rule.

A student thus debarred from examination must repeat the course in class in order to obtain credit for it.

Three unexcused absences in a three-hour course, or four in a four-hour course shall debar a student from final examination. In each case he cannot secure permission to take the final examination except by written approval of the instructor and Dean of the College. Each absence incurred just before or after the Thanksgiving, Christmas, and Easter recess, respectively, shall be counted as two absences, excused or unexcused, as the case may be.

WITHDRAWAL

Any student desiring to withdraw from the University during a semester must first secure a total withdrawal card from the Dean. This card when presented at the office of the Treasurer will entitle the student to whatever refund of fees there may be for him. Students not complying with this regulation will not be granted an honorary dismissal.

RULES AND REGULATIONS

Such rules and regulations as have been found useful in the conduct of life on the campus and in the college community are to be found in the "Student Manual," a book compiled by the faculty and published by the College.

General Statement

Barber-Scotia College is an institution of junior college rank for the training of women, and is under the auspices of the Board of National Missions of the Presbyterian Church, U. S. A. It was formed by a merger of Barber Memorial College of Anniston, Alabama, and Scotia Seminary of Concord, North Carolina.

Barber Memorial College was founded in 1896 by Mrs. Margaret M. Barber, of Philadelphia, as a memorial to her husband, under the auspices of the Board of Freedmen of the Presbyterian Church, U. S. A.

Scotia Seminary had its beginning when the Freedmen's Committee of the Presbyterian Church, U. S. A., sent Rev. Luke Dorland and his wife to Concord to undertake the establishment of an institution for the education of Negro girls. There were few schools of any sort in this part of our country at that time and schools for Negro girls were practically unheard of. In 1870 Letters of Patent were granted the school by the Governor of North Carolina, and the institution was given the name of Scotia Seminary.

Having for a number of years offered courses beyond that of high school grade, the name was changed in 1916 to that of Scotia Women's College. As the State advanced in its standards of rating for all schools, the college courses were dropped and the school given standard high school rating in 1919. In 1925 the name was again changed to that of Scotia Seminary.

In the fall of 1930, Barber Memorial College was transferred to Concord and affiliated with Scotia Seminary, and the name of Barber-Scotia College was adopted. In March, 1931, the College Rating Board of the State gave the school junior college rating. To secure the rating, considerable repair work was done, and new equipment was added to the library and laboratories. The institution is now thoroughly equipped to give high school and junior college courses, the graduates being admitted to the junior class of any standard senior college.

In 1932, Barber-Scotia College was affiliated with Johnson C. Smith University and became one of the undergraduate junior college divisions. Students who desire to complete four years of undergraduate work may take their last

two years in their fields of concentration in the senior college division of Johnson C. Smith University.

ADMISSION

In general, the admission requirements are the same as those of the College of Liberal Arts. Applications for entrance should, however, be addressed to the Registrar of Barber-Scotia Junior College, Concord, N. C. In satisfaction of its requirements, the College will accept the certificate of the College Entrance Examination Board. Certificates from secondary schools may be accepted, if the schools are accredited.

Fifteen college entrance units must be offered, of which three shall be in English, one each in Algebra, Geometry, Science, and History, respectively. The rest may be taken from the following subjects: Latin, Greek, French, German, Spanish, Mathematics, Physics, Chemistry, Biology, Physical Geography, Civics, or Economics.

Further particulars concerning entrance may be secured from the Catalogue of Barber-Scotia Junior College, a copy of which may be obtained by writing the Registrar of the College.

ADVANCED STANDING

Women from other standard colleges will be admitted, without examinations, to advanced standing. In the event that a student admitted to advanced standing fails to show ability to do creditably the work of the class to which she has been admitted, she will be withdrawn from that class and placed in a lower one. Women desiring to be admitted to advanced standing must submit certificates of honorable dismissal from the institution which they have been attending.

FURTHER INFORMATION

The Dean of Barber-Scotia Junior College will be glad to correspond with students desiring further information. He should be addressed at Concord, N. C.

EXPLANATION OF SYMBOLS

*—A course that is required of all students.

§—Two years of one foreign language are required for graduation.

†—One year of one science is required for graduation.

‡—Professional requirements common to all certificates for teachers in the high schools of North Carolina.

REQUIREMENTS FOR HIGH SCHOOL TEACHERS' CERTIFICATES IN NORTH CAROLINA

It is highly desirable that each applicant meet the certification requirements in two or more teaching fields. Graduation from a standard four-year college is assumed. With that understanding, the requirements are as follows:

I. The Professional Requirements common to all certificates are:

1. Educational Psychology (Education 331A or 331 B)—3 Sem. Hrs.
2. Principles of High School Teaching (Education 335 or Problems in Secondary Education (Education 334)—3 Sem. Hrs.
3. Materials and Methods (Two Fields)—6 Sem. Hrs.
(Credit for three semester hours in Materials and Methods in each subject for which certification is granted, e.g.,
English (Education 439)
History (Education 337)
Mathematics (Education 434)
Science (Education 438)
Social Sciences (Education 436)
Modern Foreign Language (Education 430)
- *4. Observation and Directed Teaching (one or both fields) (Education 433A or 433B)—3 Sem Hrs.
5. Electives—6 Sem. Hrs.

*If all the requirements except Observation and Directed Teaching are met, the Class B Certificate will be issued. The Class A Certificate may be issued whenever the applicant has had one year of successful teaching experience. It is understood that this teaching will have been done under the joint supervision of the Head of the Educational Department of the institution from which the student is graduated, and the superintendent of the school in which the applicant taught.

II. The Subject Matter Requirements for the teaching of any subject shall be:

1. For English----- 24 Sem Hrs.
a. English 131-132, 231-232, 331-332, 431-432.
2. For French-----18 Sem. Hrs.
a. This is based on two units of entrance credit in French. If no entrance credit is presented, the applicant must have 24 semester hours, or 18 hours in addition to Elementary French.
No entrance credits: French 131-132, 231-232, and 12 hours of electives.
Entrance credits: French 231-232, and 12 hours of electives.

Note: It is recommended that the applicant have from 6 to 12 semester hours more credit in the Language to be taught than that represented by the minimum.

3. For History-----24 Sem. Hrs.
 a. History 231A or 231 B, 235-236, 331-332, 433.
 b. Political Science 331.
 c. Economics 231

Note: It is recommended that the History teacher have not less than 36 semester hours, including 24 semester hours in History, with at least 6 semester hours in each subdivision in that subject, with 6 hours in Political Science and Economics and with 6 semester hours in Geography (History 335-336).

4. For Mathematics-----15 Sem. Hrs.
 Note: Additional credit for six semester hours in Mathematics would be desirable.

5. For Science-----30 Sem. Hrs.
 a. Biology 141-142
 b. Chemistry 141-142
 c. Physics 241-242
 d. Geography (History 335-336)

A certificate to teach any one science, e.g., Biology, may be secured by presenting credit for a minimum of 30 semester hours in Science, including a major in the particular science in which the certificate is desired.

Note: It is recommended that the science teacher have credit for at least 36 semester hours, with not less than six semester hours in any one of the four sciences.

SYSTEM OF COURSE NUMBERS

The first digit indicates the sequence of the course, the second digit the number of credit hours, and the third indicates the semester. Odd numbers indicate first semester and even numbers second semester.

Courses beginning with 1 are intended primarily for Freshmen, 2 for Sophomores, 3 for Juniors, and 4 for Seniors.

For example: English 131 is open to Freshmen, carries three hours credit and is offered in the first semester. English 336 is intended primarily for Juniors, carries three hours credit and is offered in the second semester.

A course numbered 231A or 231B denotes that the same course is offered in both semesters, A for the first semester, and B for the second semester.

COURSES OF INSTRUCTION

DEPARTMENT OF BIOLOGY

A major consists of twenty-four hours of Biology, and Chemistry 342 or 352. The following courses in Biology should be pursued for a major: 141-142, 241, 244 and 344. A minor consists of sixteen semester hours in Biology.

Biology 141-142

General Biology—A general survey of plant and animal kingdoms with special emphasis on forms and structure; also an introduction to general principles and problems of biology. 141 deals chiefly with zoology, 142 with botany. There is no prerequisite for 142. Credit 8 semester hours.

Biology 241

Comparative Anatomy.—An introduction to the study of the various types of vertebrates—their organs and organ systems. Two lectures and two two-hour laboratory periods each week. Prerequisites: Biology 141-142. Credit 4 semester hours.

Biology 242

Mammalian Anatomy.—A detailed study of the anatomy of the rabbit or cat—the organs and organ systems. One lecture and three two-hour laboratory periods each week. Prerequisites: 141-142, and 241 or 244. Credit 4 semester hours.

Biology 244

Embryology.—Especial emphasis on the development of the chick and pig. Two recitation periods and two two-hour laboratory periods each week. Prerequisites: 141-142, and 241. Credit 4 semester hours.

Biology 245-246

Genetics.—Emphasis on the causes of variation and the mechanism of heredity. Mendelian analysis and problems of heredity taken up in detail. Experiments in animal breeding will be studied in the laboratory. Two lectures and two two-hour laboratory periods each week. Prerequisites: 141-142. Credit 8 semester hours.

Biology 341

Micrology and Histology.—Instruction in technique of preparing tissues for microscopic examination, and examination and detailed study of various tissues. One lecture and three two-hour laboratory periods each week. Prerequisites: 141-142, and 241. Credit 4 semester hours.

Biology 343

Microbiology.—An introductory course in the study of micro-organisms with special emphasis on bacteria. Prerequisites: 141-142. It is recommended that students taking this course have some knowledge of chemistry. Two lectures and two two-hour laboratory periods each week. Credit 4 semester hours.

Biology 344

General Physiology.—A study of the functions of organisms—functions of the nervous, circulatory, respiratory, digestive, and other systems taken up in detail. Two recitations and two two-hour laboratory periods each week. Prerequisites: Biology 141-142, 241, and Chemistry 342 or 352. It is recommended that the student taking this course should also have some knowledge of physics. Credit 4 semester hours.

DEPARTMENT OF CHEMISTRY

The courses in Chemistry are arranged to enable students to obtain a general knowledge of Chemistry; to equip those who plan to teach; and to give a basic foundation for those who plan to enter medicine, the industrial field, or advanced work.

1. A major in Chemistry consists of 24 semester hours.
2. A minor consists of 16 semester hours.
3. Students majoring in Chemistry are required to earn 8 semester hours in Biology and 8 semester hours in Physics.

Chemistry 141-142

General Chemistry.—The fundamental principles of Chemistry. Two lectures and two two-hour laboratory periods each week throughout the year. Credit 8 semester hours.

Chemistry 241

Qualitative Analysis.—An introductory course in the analysis of metals and non-metals. Prerequisite: Chemistry 142.

Chemistry 242

Quantitative Analysis.—The general principles of volumetric and gravimetric analysis. Prerequisite: Chemistry 241.

Chemistry 341-342

Organic Chemistry.—The general principles of Organic Chemistry. No credit given unless the entire course is completed. Prerequisite; Chemistry 142.

Chemistry 344

Qualitative and Quantitative Analysis.—An advanced course in qualitative and quantitative analysis. Prerequisite: Chemistry 242. Not offered 1933-34.

Chemistry 352

Organic Chemistry.—An introductory course in Organic Chemistry. Prerequisite: Chemistry 142.

Chemistry 441

Organic Preparations.—A laboratory course with one conference weekly, illustrating some of the more important synthetic methods of Organic Chemistry. A reading knowledge of French and German is desirable. Prerequisite: Chemistry 342.

Chemistry 442

Qualitative Organic Analysis.—Identification of pure organic compounds and mixtures. Prerequisite: Chemistry 342.

Chemistry 443-444

Physical Chemistry.—The general principles of Physical Chemistry. Prerequisites: Chemistry 342, Physics 242. A knowledge of Calculus is desirable.

Chemistry 445

Physiological Chemistry.—A fundamental course dealing with the chemical processes in the animal body. Prerequisites: Chemistry 242, Chemistry 342 or 352, or by permission of instructor. Not offered 1933-34.

DEPARTMENT OF ECONOMICS

Requirement for major—20 semester hours. Economics 231 and 232 are prerequisite (except for Economics 234) for all other courses in the department. Students majoring in other branches of the Social Sciences are required to take Economics 231. Credit on a History major may be given for Economics 325 and 326 on approval of the head of the department.

Economics 231A and 231B

Principles of Economics.—Analysis of fundamental theories and principles of production, exchange, value, distribution, and consumption. Instruction by lectures, assigned readings, discussions, and written tests. Credit 3 hours.

Economics 232

Problems of Economics.—Continuation of Economics 231 with emphasis on business cycles, price movements, business management, taxation, international trade, labor, money and banking, etc.; attention to present-day problems. Credit 3 hours. Prerequisite 231.

Economics 234

Economic Geography.—Studies are made of raw material sources, their distribution, control by nations and individuals, and how the struggle for these scarce resources (fisheries, ores, forests, soils, water power, and oils) has affected the industrial activities of men. The geographical division of labor, topography of the earth's surface, and transportation facilities to markets are discussed. Prerequisite: Economics 231. Credit 3 hours. First semester. Not offered 1933-34.

Economics 325

Economic Development of Europe.—Survey by lectures, readings, and discussions on the development of economic institutions from early times to the present. Credit 2 hours. Prerequisite 231.

Economics 326

Economic Development of the United States.—An account of the evolution of agriculture, trade, manufacturing, and commerce. The growth of banking institutions, corporations, labor organizations from Colonial times to the present. Historical illustrations of the working of economic principles. Credit 2 hours. Prerequisite 231.

Economics 333

Labor Economics.—Development of modern industrial employment with its wage system. Problems of wages, industrial unrest, methods of unions and employers' associations, collective bargaining. Attempts to adjust disputes. Negro in industry. Credit 3 hours. Prerequisite 231.

Economics 334

Labor Legislation.—The State and the labor contract. Hours and conditions of employment, workmen's compensation, women and children in industry, minimum wages, health, unemployment insurance, arbitration, etc. Credit 3 hours. Prerequisite 231 and 334.

Economics 421

Money and Credit.—Origin and development of money, standards of value, monetary changes and reforms, relation of money and credit, price levels and index numbers. National and international problems. Money and credit theories. Credit 2 hours. Prerequisite 231.

Economics 422

Banking.—Types of banking institutions and how they operate. History, theory, and proposed changes. Government regulation. Federal Reserve system. Branch banking. Foreign banking systems. Credit 2 hours. Prerequisites 231 and 421.

DEPARTMENT OF EDUCATION

The purposes of this department are: (1) primarily to prepare teachers for the high schools of North Carolina, and (2) for students desiring to study the school as a social institution.

Students who do not expect to teach, but desire to secure a general knowledge of the educational system, its history and administration, may find the following courses of interest: 231-232 and 333.

Admission

One year of college work or its equivalent is necessary for admission to credit courses in this department.

High School Teachers

Prospective high school teachers usually prepare to teach two subjects. Their program should consist of courses in subjects which they are to teach, courses in related subjects, professional courses, including special methods of teaching two different subjects, and supervised teaching.

Required Subjects

All students who plan to major in Education are expected to take the following courses: Education 331, 334, 335, 336, 435, 433, and at least 3 semester hours each of special methods and teaching supervision in major and related fields. A minimum of 24 hours is required for a major in this department.

Education 111

Freshman Orientation.—The history, organization and traditions of Johnson C. Smith University. The aims and methods of study; health talks; the use of the Library; the field of knowledge. Required for first year students. One credit hour. First semester.

Education 112

Occupations.—A study of the various vocations. Such tests and analysis as will aid in discovering basic characteristics and qualities are given. Persons prominent in the

different fields of business and other professions give lectures on the vocations and discuss with groups of students the vocations in which they have special interest. Required for Freshmen. One credit hour. Second semester.

Education 231 A-231B

Introduction to Education.—Credit 3 semester hours. This course is designed to introduce the student to the field of education, to show the present-day organization, aims, tendencies, and problems of education. This course is required of all first-year students in the field of education.

Education 311-312

Scout Master Leadership Course.—A course preparing men for boy leadership. An approved certificate will be issued at the completion of the course by the National Council of Boy Scouts of America.

Two hours a week. One credit hour each semester.

Education 331A-331B

Educational Psychology.—Credit 3 semester hours. The purpose of this course is to etach the practical application of the principles of psychology to educational problems. Emphasis is placed on the learning process, transfer, drill, interest, motivation, and problem solving. Required of all second-year students in the field of education. Prerequisite: Psychology 231.

Education 333

History of Education.—Three hours first semester. Credit 3 semester hours. In this course, a study is made of the history of organized school work from early times to the present, with chief emphasis upon the history of education in the United States. The lives and theories of great educational thinkers receive attention.

Education 334

Principles and Problems of Secondary Education.—Credit 3 semester hours. Prerequisite: Approval of the instructor. The course gives the methods and principles of instruction in high schools. The aims, values and function of high school subjects. The nature of the pupil, the means and materials available for educational purposes.

Eduction 335

Methods of Teaching in the High Schools.—Credit 3 semester hours. This course treats of principles and methods of learning and teaching high school subjects. The student is given opportunity to observe the teaching of the various subjects in the city high school. Prerequisite: Education 331.

Education 336

Classroom Management.—Credit 3 semester hours. This course is designed to prepare teachers to do effective and economical work in the classroom. The modern methods of control and supervision are given to the student.

Education 337

Materials and Methods in High School History.—Prerequisite: 12 hours credit in history. Credit 3 semester hours. The work of this course deals with the methods of conducting the course in history for high schools. Practice problems of learning history are discussed. Emphasis is placed on working out projects and complex situations in practice teaching connected with this course. Modern materials and methods will be studied. Prerequisite: Education 335.

Education 430

Methods of Teaching the Modern Languages.—Prerequisite: 18 semester hours credit in modern languages. (French or German.) Credit 3 semester hours. Discussions of aims and general methods of teaching the modern languages in the high school. Methods of teaching specific points, vocabulary, forms, translation, devices for arousing interest, standard tests in the languages and other teaching aids. Prerequisite: Education 335.

Education 431-432

High School Administration and Supervision.—Credit 6 semester hours. A study of the activities of the high school principal as administrator and as supervisor. For advanced undergraduates, and teachers and principals in service.

Education 433A-433B

Observation and Practice Teaching.—Prerequisite: 18 semester hours of Education, open to Seniors only. Credit 3 semester hours. By arrangement with the Public School System of Charlotte, students may observe and practice teaching under actual school conditions. Students taking this course should allow for it at least two morning hours between nine and twelve, or two afternoon hours between twelve and three per week for entire semester.

Education 434

Materials and Methods in High School Mathematics.—Prerequisite: 18 semester hours of Mathematics. Credit 3 semester hours. This course deals with the aims and values of mathematical study, the course of mathematics as taught in high schools, materials and methods of teaching. Prerequisite: Education 335.

Education 435

Tests and Measurements.—Credit 3 semester hours. This course offers an introduction to the significance of measuring results in Education. The student learns to test and measure results. The making of tests, scoring examinations, source of test materials and how used in teaching.

(Required of all students majoring in Education.)

Education 436

Materials and Methods in Teaching the Social Studies.—Prerequisite: 18 semester hours of Social Science. Credit 3 semester hours. Consideration will be given to such topics needed to unify the Social Studies program in the secondary schools. Relationships—economic, sociological, biological, geographic, are stressed. This course should follow Education 337. Prerequisite: Education 335.

Education 438A, 438B, 438C, 438D

Materials and Methods in High School Sciences.—Prerequisite: 18 semester hours of Natural Science. A twelve-semester credits course divided into four units of three semester credits each: 438a, General Science; 438b, Biology; 438c, Chemistry; 438d, Physics. The student may

elect one or two units corresponding with the science field or fields in which he is preparing to teach. Prerequisite: Education 335.

Education 439

Materials and Methods in High School English.—Three credit hours. First semester. Open to Juniors and Seniors. Required of candidates for teaching positions in the secondary schools of North Carolina. Prerequisite: English 131-132, and English 231-232, and English 331-332; Education 335.

The basic English activities, objectives, selection and organization of materials, lesson plans, and methods of teaching English in the secondary school. Lectures, prescribed reading, quizzes, observation. This course counts towards a major in Education or towards a major in English.

Physical Education 321-322

See Department of Physical Education.

Education 531-532

Administration and Supervision of the Elementary School.—Six semester credits. Three hours weekly throughout the school year. Primarily for teachers and principals in service. A critical survey of better practices in administering and supervising the work of the elementary school, and of principles underlying these practices.

DEPARTMENT OF ENGLISH LANGUAGE AND LITERATURE

Candidates for degrees with a major in English must present a minimum of 30 semester hours in English. This requirement means that students presenting a major in English must complete at least 18 hours of English beyond the 12 hours required in the Junior College Division.

Students presenting a minor in English must present a minimum of 21 semester hours in English, or 9 hours of English beyond the 12 hours required in the Junior College Division.

The following courses in sequence are required of majors and minors: English 131-132, 231-232, 331-332, 336; English 431-432 is required of majors and minors who plan

to teach English in the high schools in North Carolina. Thirty hours of college English are recommended for qualification for an A-class high school certificate to teach English in North Carolina.

Besides college classical and modern foreign languages, majoring students should elect English and American History, and the history of philosophy.

Departmental Clubs

The English Department sponsors the following clubs: Rho Omicron Sigma Debating Society, the Smith Players, and the English Philological Society.

English 100A-100B

Fundamentals of English—Drill in fundamentals. Required of students who fail to pass the preliminary placement examination in English. Three hours a week throughout the year. No credit.

English 131A-132B, 131B-132A

Second semester: from Blake to the present. Throughout the year. Prerequisite: English 231-232. Credit 6 hours.

English 335

(This course is given in alternate years. Will be given in 1934-1935.)

Milton.—A study of the complete poems of John Milton, with reference to his most important prose writings. Milton's life and background of seventeenth century thought will also be considered. Prerequisite: English 231-232, and the consent of the instructor. Credit 3 hours.

English 336

(This course is given in alternate years. Will be given in 1934-1935.)

Shakespeare.—The study and appreciation of Shakespeare as a poet of the Renaissance, with emphasis upon

his development as a dramatist. Although general reference is made to all the plays, sonnets, and poems, intensive study is given to *Romeo and Juliet*, *Part I Henry IV*, *Twelfth Night*, *Hamlet*, or *Othello*, and *The Tempest*. Prerequisite: English 331. Credit 3 hours.

English 423-424

History of the English Language.—A study of the historical development of the English language serving as an introduction to the materials and methods of linguistic science. Some detailed knowledge of classical and modern foreign language is required. Throughout the year. Prerequisite: English 331-332, and the consent of the instructor. Credit 4 hours.

English 427-428

The English Drama.—A study of the development of the English Drama. First semester: the period from the beginnings to 1642, with emphasis upon the Elizabethan dramatists with the exception of Shakespeare. Second semester: the period from 1660 to the twentieth century, with emphasis upon the Restoration dramatists and the dramatists of the late nineteenth and early twentieth centuries. Throughout the year. Prerequisite: English 331-332. Credit 4 hours.

English 431-432

American Literature.—A study of the development of American literature, with consideration of its relation to American life and to English literature. First semester: the period from 1607 to the Civil War. Second semester: the period from the Civil War to the present. Throughout the year. Prerequisite: English 331-332. Credit 6 hours.

English 435-436

The English Novel.—A study of the development of the English novel. First semester: from Malory to the early nineteenth century. Second semester: the later nineteenth and twentieth centuries. The social background of the novels studied will be emphasized. This course is designed for advanced students. Throughout the year. Prerequisite: English 331-332, and English History. Credit 6 hours.

English 437

(This course is given in alternate years. Will be given in 1933-1934.)

The Romantic Poets.—A study of the poetry and criticism of the Romantic Movement. Intensive study is made of the poetic and critical works of Wordsworth, Coleridge, Byron, Shelley, and Keats. Prerequisite: English 331-332. Credit 3 hours.

English 438

(This course is given in alternate years. Will be given in 1933-1934.)

The Victorian Poets.—A study of the poetry of the Victorian age with major emphasis upon Tennyson and Browning, but including also the poetical works of Clough, Arnold, Rosetti, Morris, and Swinburne. Prerequisite: English 331-332, 437. Credit 3 hours.

English 439

Materials and Methods in High School English.—(See Education 439.)

DEPARTMENT OF FOREIGN LANGUAGES AND LITERATURE

The College provides elementary, intermediate, and advanced instruction in French, German, and Spanish. Final credit is not given for fewer than two years of French, German, and Spanish. A major in French shall consist of twenty-four hours beyond the Freshman year or a total of at least thirty hours. Those preparing to teach will not be recommended by the department unless they have had twenty-four hours beyond the Freshman year and credit for Education 430. A minor in French consists of fifteen hours beyond the Freshman year.

Departmental Clubs

Le Cercle Français, El Circulo Español, and Die Deutsche Gesellschaft meet periodically during the academic year. All students belonging to 231-232, 331-332, 431-432, and beyond are required to attend.

COURSES OF INSTRUCTION FRENCH

French 131A-131B

Elementary French.—Primary object: to enable the student to understand French, written and spoken. Reading accompanies the grammatical analysis of the language and the study of the regular and common irregular verbs. The foundation of the correct pronunciation is laid through the presentation of the elementary phonetic facts, with the laboratory practice and drill. Dictation and memorization. Three hours credit.

French 132A-132B

Elementary French.—Primary object: to enable the student to reproduce easy French, written or spoken. Further practice in pronunciation with reading and phonetic tests. Dictation and memorization. Questionnaires, free themes, vocabulary drill and sentence expansion.

Class reading of 200 pages. Prerequisite: one unit of high school French or French 131 in College French. Three hours credit.

French 231

Intermediate French.—Emphasis on linguistic fluency and accuracy both in comprehension and in reproduction. Continued stress on pronunciation and the understanding of the spoken French. French Grammar Review, dictation, and memorization. Résumé and short themes in French.

Class and collateral reading of 300 pages. Extensive reading of 400 pages. Prerequisite: 1½ units of High School French or French 132. Three hours credit.

French 232

Intermediate French.—A reading course conducted in French. French composition. Written themes based on the reading and individual projects. Special study of idioms and tense uses. Class and collateral reading of 400 pages. Extensive reading of 500 pages. Prerequisite: French 231. Three hours credit.

French 321

Survey of French Literature to 1715.—A general survey of French literature from the beginnings to 1715, with the major illustrative readings. Instruction in French. Prerequisite: credit for a major from 232. Two hours credit.

French 322

Survey of French Literature, 1715-1900.—A general survey of the eighteenth and the nineteenth centuries, with illustrative readings. Instruction in French. Prerequisite: French 321. Two hours credit.

French 333

Practical French Composition.—Principles généraux, exercices pratiques de composition française. Explications orales de textes de différents auteurs. Prerequisite: French 232. Instruction in French. Three hours credit.

French 334

Oral French.—Careful reading of more difficult modern texts with increased attention to their character as literature. Continued study of idioms. Class and collateral reading of 500 pages. Extensive reading of 600 pages. Prerequisite: French 333 or its equivalent. Instruction in French. Three hours credit.

French 430

Methods of Teaching French.—(See Education 430.) Three hours credit.

French 431

French Literature of 18th Century.—Three hours credit. For French majors only. Course conducted in French.

French 432

French Literature of 19th Century.—Three hours credit. For French majors only. Course conducted in French.

French 433

French Literature of 17th Century.—Three hours credit. For French majors only. Course conducted in French.

French 434

Advanced Studies in French Conversation, Composition, and Oral Practice.—Three hours credit. For French majors only. Course conducted in French.

GERMAN**German 131**

Elementary German.—Primary object: to enable the student to understand easy German, written and spoken. Pronunciation taught phonetically. The grammatical analysis of the language is supplemented from the beginning by class and collateral reading of a minimum of 400 pages. Dictation, sentence mutation, and memory work as a basis for composition. Oral and aural drill.

German 132

Elementary German.—Primary object: to enable the student to read intermediate texts with ease and to reproduce simple German orally and in writing. Continued analysis of the language, with review study. Memory work, imitation of type sentences, sentence manipulation and mutation. Formal and free composition. Increased use of German in the classroom. Extensive reading of 500 pages. Prerequisite: 1 unit of High School German, or German 131. A grade of C or better in the preceding course, or recommendation of the instructor is required.

German 231

Intermediate German.—Aim: to enable the student to use German as a tool-subject. Practice in writing and speaking simple German. Grammar review. Vocabulary building. Free and formal composition. Extensive reading of 500 pages, of which 100 pages are on the student's major subject. Oral and written reports, partly in German. Prerequisite: 1½ or 2 units of High School German or 2 majors in College German. A grade of C or better in the preceding course, or recommendation of the instructor, is required.

German 232

Intermediate German.—Reading course in modern (mainly nineteenth century) prose with especial emphasis

on vocabulary study, syntax, and oral reproduction of the text. Weekly themes on class reading. Extensive reading of 800 pages. Prerequisite: 2½ units of High School German or German 231.

German 331

Advanced German.—Reading of eighteenth century or modern masterpieces both narrative and dramatic, with increased attention to their character as literature. Continued study of vocabulary and idiom leading to a ready reading ability. Weekly themes. Extensive reading of 1,000 pages, of which approximately 500 must be chosen from Lessing, Schiller, and Goethe. Prerequisite: 3 or 3½ units of High School German, or German 232. Not offered 1933-1934.

German 332

Advanced German.—German literature of the nineteenth century. Prerequisite: German 232. Not offered 1933-1934.

German 333

Scientific German.—A course designed for those desiring to secure special work in scientific terminology. Prerequisite: German 231. Not offered 1933-1934.

GREEK

Greek, as the background of so many languages, offers to the earnest student invaluable advantages in the fields of language and literature. A student who knows Greek in its interpretive aspects has in his hands the key to culture.

A major in Greek shall consist of Courses 131-132, 231, 232, 331, 332, and additional hours to bring the total up to twenty hours.

A minor shall consist of a minimum of fourteen hours, i. e., eight hours above Courses 131 and 132.

Greek 131-132

Greek Grammar.—A course consisting of an introduction to the Greek language and open to those having no previous training in the subject. Attention is given to

prose composition. Three hours continuing throughout the year.

Greek 231

Xenophon.—A course based on Xenophon's *Anabasis* and optional readings from other authors. Three hours.

Greek 232

Rapid Reading Course.—A continuation of Greek 231 with intent to increase the ability of the student to read at sight. Three hours.

Greek 331

Optional Readings.—A rapid reading course consisting of optional readings in such authors as Euripides, Homer and Herodotus. Three hours. Not offered 1933-1934.

Greek 332

Greek Literature.—Readings in Plato, Aristophanes, and Greek tragedy. Three hours. Not offered 1933-1934.

LATIN

Courses in Latin provided upon request. Those interested should consult the Dean.

SPANISH

Spanish 131

Elementary Spanish.—Primary object: to secure the understanding of easy Spanish, written or spoken. Pronunciation taught on the phonetic basis. Reading accompanies the grammatical instruction from the beginning. The foundation of subsequent instruction in formal composition is laid in dictation, memorizing of typical sentences, and verb and sentence drill. Abundant aural recognition. Instruction partly in Spanish. Three hours credit. Not offered 1933-34.

Spanish 132

Elementary Spanish.—Increasing emphasis on the understanding of spoken Spanish and oral practice. Syntax

and verb drill; dictation. Intensive reading of 150 pages in class. Prerequisite: 1 unit of High School Spanish or Spanish 131. Three hours credit. Not offered 1933-34.

Spanish 231

Intermediate Spanish.—Emphasis on the facility and accuracy in reading of standard literary Spanish, and on formal composition. Increased oral practice. Grammar review; dictation; original themes. Intensive reading of 200 pages; Spanish history, and institutions. Prerequisite: 1½ or 2 units of High School Spanish or Spanish 132. Three hours credit. Not offered in 1933-34.

Spanish 232

Intermediate Spanish.—Emphasis on composition and aural comprehension as evidenced by the ability to enter into conversation based on intensive reading. Intensive reading in class of 250 pages. Prerequisite: Spanish 132. Three hours credit. Not offered 1933-34.

DEPARTMENT OF HISTORY

Requirements for a major—twenty semester hours in Senior College—those who plan a major should consult the head of the department.

History 231A-231B

History of Western European.—A study of Western Europe from 378 through the World War. Special study is made of the Roman Empire and the causes for its decline: the barbarian invasions, the growth of the church, feudalism, foundation of national states, Renaissance and Reformation, French Revolution and the Industrial Revolution. Required of all Sophomores. Three hours credit.

History 233

History of England to 1688.—Anglo-Saxon contributions, invasions of early Teutonic tribes, Norman conquest, Renaissance, Reformation, Tudors and Stuarts. The period which gives us the background of American institutions. Credit 3 hours.

History 234

History of England Since 1688.—The rise of modern England and its commonwealth of nations. Empire building, industrial revolution, age of Victoria, World War. A continuation of 233. Credit 3 hours.

History 235

History of the United States to 1850.—This course deals primarily with the history of the United States from European backgrounds to 1850. Due consideration, however, is given the institutional, economic, and social life of the English colonies, also the revolutionary movement and the formation of the United States. Source readings. Three credit hours.

History 236

The History of the United States From 1850 to the Present Time.—This course will begin with a more intensive study of the conflicting interests of the North and the South. It will analyze the compromise measures intended to prevent the impending conflict. Intensive attention will be given to the Civil War and the period immediately following, to the Reconstruction Period, to its effect upon the whole country and especially to the Negro. Three hours credit.

History 323

Hispanic America.—The growth of the Latin-American Republic and their relations with one another and with the outside world. Attention will be given to their institutions and social conditions and the development of the revolutionary spirit. Three credit hours. For Juniors and Seniors.

History 331

Ancient History.—A study of Ancient Civilization of Egypt, Babylonia, Assyria, Caldea, Persia, and other nations of Western Asia, and the influence of these nations on history. Special attention is also given to the development of the Aegean Civilizations, the cultural life of Athens in the age of Pericles, and the ideals and achievements of the Greeks. For Juniors and Seniors. First semester, three credit hours.

History 332

A History of Rome.—A study of the history of Rome from prehistoric times to 565 A.D. Special attention will be given to the constitutional development of Rome, its religious and social life and domination in the Mediterranean, and the religious, intellectual, and social life in the late empire. Three credit hours, second semester.

History 334

The British Empire.—A study of the rise of the British Empire and the development of the new policy. Movements for imperial reforms, problems of federations and the present status of the British dominions. Two hours credit, second semester. Prerequisite: History 232. For Juniors and Seniors.

History 335-336

Physical, Commercial, and Industrial Geography.—In this group of courses the student is led to study intensively these three great divisions of Geography for the purpose of giving him a broader world view and more accurate interpretation of life of the peoples of the world. This course is required for those students who are preparing themselves to teach science in the high schools of the State and is recommended for all students who offer work in the Sciences for their major. Three semester hours a week throughout the year.

History 432

English Constitutional History.—Origin and development of English institutions and government with emphasis on evolution of parliamentary government, cabinet, political parties, methods of guaranteeing liberties, and the rise of democracy. Recommended for those majoring in history and political science, especially pre-legal students. Credit 3 hours. Prerequisite: 6 hours in History.

History 433

The Evolution of Prussia.—This course will trace the origins of the Kingdom of Prussia, its rise to power as the dominant German state, and its part in the life of the

United Empire. Lectures, reports, and discussions. Juniors and Seniors.

History 434

American Constitutional History.—The development of the Federal Constitution, a brief review of the English and Colonial backgrounds; this will be followed by the later developments through interpolations of the Federal Courts and Political Events. Cases, collateral readings. Prerequisite: History 231. For Seniors. (Omitted 1933-1934.)

History 436

The Diplomatic History of Europe, 1870-1919.—International relations from the outbreak of the Franco-Prussian War through the Paris Peace Conference. The topics presented will include the diplomacy of Bismark; the Triple Entent; the conflict of interests of the Great Powers in the Balkans, Africa, and Asia; the international crisis; the outbreak of the World War; the diplomacy of the war; and the Paris Peace Conference. Lectures, assigned readings, and discussions. Juniors and Seniors.

DEPARTMENT OF MATHEMATICS

The purpose of the courses here outlined is two-fold: first, to acquaint the student with those fundamentals of college mathematics which are essential to the study of advanced courses in Science, Economics, and other subjects; second, to give the student a thorough foundation for the study of advanced courses in Mathematics. Those who wish to major in Mathematics should elect Mathematics 241-242 in Sophomore year.

A major in Mathematics consists of at least 30 semester hours with 45 grade points.

A minor in Mathematics consists of at least 20 semester hours with 25 grade points.

Mathematics 100

Sub-Freshman Course

100A-100B—Fundamentals of Mathematics.—Prerequisite for 131 and 132. Also Freshmen who fail in the first six weeks' work will be required to drop 131 and finish out the semester in class 100A.

Mathematics 131A-131B

College Algebra.—A course beginning with a complete treatment of elementary topics and continuing with advanced topics such as progressions, mathematical induction, complex numbers, theory of equations, probability, determinants and partial fractions.

Mathematics 132A-132B

Plane Trigonometry.—This course will cover the following topics: trigonometric functions of angles, solution of triangles, measurement of angles, function of multiple angles, logarithms, inverse functions, complex numbers, DeMoivre's theorem.

Mathematics 241

Plane Analytic Geometry.—This course will begin with a survey of more important formulas of plane geometry and trigonometry. The following topics will be covered thoroughly: Cartesian co-ordinates, the straight line, the circle, transcendental, curves, parabola, ellipse, hyperbola, tangents, parametric equations and loci. Prerequisite: Mathematics 131-132.

Mathematics 242

Differential Calculus.—The course begins with the topic variables and functions, and is followed by a discussion of the theory of limits. The elementary principles of differentiation are taken, as well as their rules. The following make up the remaining portion of this course: simple differentiation of trigonometric functions, differentials, curvature, partial differentiation. Prerequisites: Mathematics 131-132-241.

Mathematics 341

Integral Calculus.—This is a continuation of Mathematics 242, and the following topics are treated zealously: The rules of integration, the definite integral, integration of rational fractions, integration by substitution, parts, and partial integration. Prerequisite: Mathematics 242.

Mathematics 342

Theory of Equations.—This course is open to advanced students of mathematics. A study will be made of: com-

plex numbers, cubic and quartic equations, graph of equations, determinants, construction with ruler and compasses, isolation of roots, solution of numerical equations. Prerequisite: Mathematics 341.

Mathematics 431

History of Mathematics.—This course is offered primarily that prospective teachers of mathematics may have a thoroughly rich background. A study of the personality and works of “Men Who Made Mathematics” will be given, also the historical development of all elementary branches, including Calculus.

Mathematics 441

Differential Equations.—This course aims to meet the needs of students who wish to study engineering, advanced physics or a major in pure mathematics. The course will cover: formation of differential equations, equations of the first order and the first degree, singular solutions, applications to geometric mechanics and physics, linear equations, exact and particular forms, equations of the second order. Prerequisite: Mathematics 341.

Mathematics 442

Advanced Calculus.—A lecture and problem course including power series, partial differentiation, implicit functions, applications to geometry, definite integral, gamma and beta functions, line, surface and space integrals. Prerequisite: Mathematics 341.

Mathematics 444

Solid Analytic Geometry.—This course is a continuation of Mathematics 241. The work includes an intensive study of Cartesian co-ordinates in space, the plane and straight line in space, special surfaces (sphere, cylinder, and cone), transformation of co-ordinates, equations of the second degree in three variables, forms, classification, and properties of quadric surfaces, tetrahedral co-ordinates. Prerequisites: Mathematics 100-241-341.

DEPARTMENT OF MUSIC

Private instruction is offered in Piano and Voice. For information, consult the Director of Music.

Music 111-112

Church and Choral Music.—This course includes the study of choral technique and voice building. Practice in A Capella singing, spirituals, and chorales from the classical school. It meets two times each week. Appearance at various college and church functions throughout the year is required of those taking the course. One credit hour.

Music 221

Appreciation.—An introduction to the appreciation of music designed as a cultural course to acquaint students with the minor factors involved in intelligent listening and the importance of the art as a whole. Special attention will be given to the history of the art, musical form, and the distinctive style of each composer. Two hours credit. First semester. Required of Sophomores.

Music 222

Appreciation.—A continuance of Course 221. With special attention to style, form, and contents of compositions. Two hours credit. Second semester.

Music 321

Sight Singing and Ear Training.—This course gives systematic training in the fundamentals of music theory, sight singing and ear training, stressing the elementary problems in pitch and rhythm. Individual work is required in both sight singing and ear training. Two credit hours.

Music 332

Public School Music.—The place, aim, and general method of school music as based upon social, educational, and esthetic principles. Material and methods throughout the school system with reference to voice, ear, notation, appreciation, and instrumental study. The folk song and the art song will be studied. Teaching in the simplest form, yet involving pedagogy, psychology, and principles of teaching all applied to music in such a manner that will be of daily use to the teacher. Published materials will be examined in class.

DEPARTMENT OF PHILOSOPHY

Requirements for a major: 24 hours including 331, 334, 221, and 332. It is recommended that the student planning to major in this department shall have at least the elementary courses in Biology and Psychology as well as Physics.

Philosophy 231

Logic—Inductive and deductive. Three hours.

Philosophy 233

Introduction to Philosophy.—This course is designed to give the beginning student an insight into the problems and methods of philosophy. Three hours.

Philosophy 332

Ethics.—The course deals with the sources and validity of the ethical concepts and their application to individual and social problems. Three hours.

Philosophy 333

Ancient and Mediaeval Philosophy.—This course attempts to trace the development of philosophic thought from Thales to the Renaissance. Three hours.

Philosophy 334

History of Modern Philosophy.—This course is a continuation of Philosophy 333, but may be taken independently of it. Three hours.

Philosophy 335-336

Contemporary Philosophy.—(Both semesters.) Various contemporary philosophers, Bertrand Russell, Bergson, Santayana, C. I. Lewis, will be studied, each man a different semester in such a fashion that a major in the department may take the course for two years without duplication. Six hours. Prerequisite: 233-333.

Philosophy 422

Philosophical Classics.—In this course some of the major works in philosophy will be read, depending on the particular needs of the class. Prerequisite: Philosophy 333, 334, or consent of instructor. Two hours.

DEPARTMENT OF PHYSICAL EDUCATION

All students in Physical Education are required to supply themselves with a regulation gymnasium uniform, consisting of a white athletic shirt, a pair of white trunks, an athletic supporter, and a pair of rubber-soled shoes.

The courses outlined below are required of all Freshmen and Sophomores. No credit is allowed towards graduation.

Physical Education 101-102

This course in physical training will consist of physical drills, personal contact drill, calisthenics, gymnasium work, group games, and mass athletics. They are designed to improve body control and strength, to stimulate the development of mental and physical alertness, to establish habits of regular exercise, and to give experience in various kinds of recreative sports that will be useful in later years. Required of all Freshmen. This course meets two periods a week throughout the year.

Physical Education 201-202

This course is a continuation of the Freshman course with a more strenuous application of organized games. All Sophomores will be urged to participate in some form of intercollegiate sport. This course meets two periods a week. Required of all Sophomores throughout the year.

Physical Education 321

Theory and Practice of Physical Education I.—This covers the significance of Physical Education, the methods of exercising, principles in organizing daily work, and the outlines for different groups of pupils in elementary, high school, and college, methods of teaching gymnastic activities. No prerequisites. Credit, two semester hours.

Physical Education 322

Theory and Practice of Physical Education II.—A continuation of gymnastic activities begun in Physical Education 321. This course deals in group games and apparatus work as well as advanced calisthenics. Credit, two semester hours.

DEPARTMENT OF PHYSICS

Major: 24 hours. Minor: 16 hours. A major in Physics must include 8 semester hours of Chemistry.

Physics 241

General Physics.—Mechanics, Heat, and Sound.—Lectures and recitations two hours a week. Laboratory four hours a week. Prerequisite: Trigonometry. Four hours credit.

Physics 242

General Physics.—Electricity and Magnetism, and Light. Lectures and recitations two hours a week. Laboratory four hours a week. Prerequisite: Physics 241. Four hours credit.

Physics 341

Advanced Heat.—A theoretical and experimental study of the principles and phenomena of heat effects and their measurement. Lectures and discussions two hours a week. Laboratory four hours a week. Prerequisite: Physics 242. Four hours credit.

Physics 342

Electricity and Magnetism.—A course in the theory of electricity and magnetism with applications to electrical and magnetic measurements. While the course is not rigidly mathematical, a reasonable amount of mathematics is used. Lectures and discussions two hours a week. Laboratory four hours a week. Prerequisite: Physics 242. Four hours credit.

Physics 441

Advanced Light.—This course is similar to Physics 341; it is concerned with optical principles and phenomena. Lectures and discussions two hours a week. Laboratory four hours a week. Prerequisite: Physics 242. Four hours credit.

NOTE: While the calculus is not listed as prerequisite to Physics 341, 342, and 343, credit for or registration in the course is strongly recommended. Not offered 1933-1934.

Physics 442

Introductory Thermodynamics.—An acquaintance with the second law of thermodynamics is the burden of this course. Lectures and discussions four hours a week. Prerequisites: Physics 341 and Calculus. Four hours credit. Not offered 1933-1934.

DEPARTMENT OF POLITICAL SCIENCE

Political Science 326

American Political Parties.—A study of the American party machinery and how it works. Three credit hours, second semester.

Political Science 331

American Government.—Principles and problems of American government. Political institutions and their functions. Analysis of legislative, executive, and judicial branches of Federal Government. Problems of administration. Influence of parties and political behavior. Credit 3 hours.

Political Science 333

International Relations.—A study of the historical origin, structure and functioning of the Western State System. Special attention is given to the legal principles generally recognized as binding upon States in the Society of Nations; to a description of the mechanism of modern diplomacy; to an analysis of the procedures and agencies for facilitating international intercourse and settling international disputes; an analysis of the causes and consequences of nationalism and imperialism in their political and economic aspects, and the effect of these forces upon the foreign policies of the Great Powers; the problem of the prevention of war; institutions and procedures for international co-operation and the maintenance of peace. Three credit hours.

Political Science 334

Comparative Governments.—A study of the governments of the leading states of Europe. Special attention

is given to constitutions and procedure, relations of parliament and executive, proportional representation. The problem of self-government. Three credit hours.

Political Science 336

State and Local Governments.—A survey of the organization and function of state and local governments. Special attention is given to the problems and suggested remedies. Three credit hours.

DEPARTMENT OF PSYCHOLOGY

Requirements for major: 24 hours; minor: 16 hours. Education 331 will count toward a major in Psychology.

The general aims are: (1) to give a knowledge of the characteristics of mental life and the laws governing psychic processes; (2) to give the student a knowledge of an appreciation for the attempts which have been made to solve the problems of existence; and (3) to encourage the student to apply his knowledge in interpreting our educational, political, moral, social, and religious problems.

Psychology 231A-231B

General Psychology.—This course is designed to give a general survey of the main problems, principles, and methods of psychology; to give the student a practical knowledge of the characteristics of mental life and laws governing it; and to prepare him for advance work in psychology and education. This involves textbook work, lectures, collateral readings, reports, and simple experiments. Three semester hours credit. Both semesters. Required of all Sophomores.

Psychology 321

Child Psychology.—The purpose of this course is to give prospective teachers a practical knowledge of the physical and mental nature of school children. This course is based on a recognition of the child as a product of evolution, heredity, and environment. Special stress is laid on the significance of infancy and the characteristics which mark the various stages of growth of the child from infancy to maturity. An important place is given to the study of instincts and emotions, with references to their

nature, development, use, and expression. Observation and study of school children are a part of the work, thus making the child the actual basis of study. The course involves textbook work, lectures, collateral reading, and reports. Prerequisite: Psychology 231. Two hours credit. Open to Sophomores and Juniors.

Psychology 322

The Psychology of Learning.—This course is designed to give the student a working knowledge of the psychological process involved in learning and habit formation. Special attention will be given to habit formation: types of learning, analysis of the laws of learning, the practical application of psychological principles in teaching school subjects. Lectures, recitations, and laboratory work. Prerequisite: six credit hours in Psychology. Two hours credit.

Psychology 324

Psychology of Adolescence.—The problems of the adolescent as related to childhood and maturity. The rise of new instincts and emotions, the development of self-consciousness and social traits, as determining the growth of interests and outlook upon life. Two hours.

Psychology 325

Genetic Psychology.—A study of the growth of fundamental psychological processes from embryo to maturity, in the light of biology, comparative psychology and child psychology. The course includes an intensive critical survey of experimental technique and reliability of results of the principal investigators. Two semester hours. Prerequisite: Psychology 231.

Psychology 326

Individual Differences.—Variations in mental traits such as attention, free association, intelligence, and personality—from a biological, experimental, and statistical viewpoint.

Psychology 423-424

Fundamentals of Statistics.—Frequency distribution, measures of central tendency, measures of dispersion, probability curve, theory of curve fitting, correlation table

and coefficients of correlation, regression. Prerequisite: Senior standing or permission of the instructor. Two hours each semester.

Psychology 431

Social Psychology.—Socialization viewed from the standpoint of the group and of the individual member. Socialization of psychological functions. Conflict and adjustment. Prerequisite: Psychology 231. Credit, three hours.

Psychology 432

Abnormal Psychology.—A study of those conditions of mental unbalance or abnormality which are chiefly psychogenetic in origin: neurasthenia, psychosthenia, hysteria, multiple personality, dementia praecox, and paranoia. The theories of Adler, Freud, Janet, Jung, and McDougall are studied as explaining these various abnormalities. Prerequisite: Psychology 231. Second semester. Three hours.

Psychology 443-444

Experimental Psychology.—These courses are elementary courses in experimental psychology. They deal with (a) sensation—upper and lower threshold; visual, auditory, cutaneous, and olfactory sense qualities; their laws and combination; (b) reactions—reflexes; habits; sensory-motor learning; co-ordination volitional contact; fatigue; etc.; (c) ideation-association; logical memory; learning. Prerequisites or corequisites of these courses are Psychology 231. Four hours each semester. Not offered 1933-1934.

DEPARTMENT OF RELIGION

Courses are offered in Bible and Religious Education. The aim of the courses in Bible is to lead the student to a deeper appreciation of the great religious and moral insights of Israel and of Jesus and His followers and the meaning of these for present-day life. The courses in Religious Education are designed to prepare students for more effective leadership in the educational program of the church.

EXTENSION SERVICE AND EVENING CLASSES

These courses are open to high school graduates or mature students who wish to further their education and find it impossible to attend classes during the day. Since this service is designed for the convenience of those who

are unable to attend regular classes of the University, it is assumed that those utilizing this service will be teachers or others in educational work who wish to prepare themselves further.

Students will receive Extension Credit for twelve (12) hours of work under the same instructor, then the student will take courses under a different instructor. Classes will be conducted on the campus in those courses that require special equipment, such as Chemistry, Physics, etc. The classes held off the campus will meet at the places most convenient for the largest number.

A three-hour course is held one and one-half hours twice a week for eighteen meetings in those courses held on the campus. One weekly three-hour period for eighteen meetings may be used for those courses held off the campus.

Students doing work on the campus will be allowed to carry two three-hour courses a week each semester. For students off the campus one three-hour course is sufficient for each semester. Courses offered by the various departments will come under the direct supervision of the departments concerned. Requirements for passing courses will be the same as those for College students.

Fees

The fee is three dollars (\$3.00) per semester hour, payable at the time of registration.

A registration fee of one dollar (\$1.00) is charged all students at the beginning of each semester.

COURSES OF INSTRUCTION

The courses below are merely suggestive. Courses offered in the regular day session will be offered in the evening provided a sufficient number of students register for them.

N. B.—Other courses may be offered if a sufficient number of students make application for them.

THE SCHOOL OF THEOLOGY

General Statement

The School of Theology is one of the standard Theological Seminaries of the Presbyterian Church, U. S. A. It was established to meet an urgent need. An educated, consecrated pulpit has ever been demanded to deliver and explain God's message to man.

With this object in view, the School of Theology aims to furnish the student with a general knowledge of Theological Science in many of its various branches; to prepare him for any special studies he may desire to pursue in line with his calling; and to afford him facilities for accomplishing his objectives.

The location of a Theological Seminary is an important factor in its usefulness. It should be located where its students will have opportunities for observing life in many of its different phases, and for application in the field of church work.

Charlotte is an ideal location for such a school. It is the largest city in North Carolina, and ranks as one of the leading cities of the South. It is also a great Presbyterian center. A minister should come in contact with problems of community life in one of the great centers of social activity. In such a center, nearly every problem of social activity is discussed and intensified. The minister needs to come in contact with such problems in order to be prepared for entering into sympathetic and intelligent relations with the people of his own church, and the communities in which he may be called to serve. Charlotte is a city of great social activity. A term of residence in this city affords opportunities for touching life in many of its modern complex forms.

Charlotte is also noted for its prosperous churches of various denominations. In this city, the student of theology has the opportunity of preaching in its churches, and in the churches of the surrounding community.

It is recommended that college students intending to enter the School of Theology select such subjects as will prepare them for the Theological curriculum. They should

give special attention to Latin, Greek, Sociology, and General History.

Terms of Admission

1. Students who have the degree of A.B. or B.S. from standard colleges are admitted as candidates for the degree of Bachelor of Theology.
2. Students, with two years of college training, may be enrolled as candidates for the Seminary Diploma, without degree.
3. Well-qualified and promising men desiring to pursue special subjects may be permitted to do so though they be not able to meet fully the conditions stated above.

Applications

Applicants for admission must present the following papers:

1. A letter of introduction to the President or the Dean of the School of Theology from some responsible person.
 2. An official statement of church membership or connection with some ecclesiastical body.
 3. An official transcript of scholastic record.
- All applications should be addressed to the Registrar of the University.

Advanced Standing

A student who has studied in another School of Theology, seeking advanced standing, must present a transcript properly authenticated, of the work already completed.

The transcript should be forwarded to the Registrar of the University previous to the student's arrival.

Graduates of standard colleges who have studied in an approved School of Theology, may be admitted to the Middle Class on presenting at least thirty semester hours; to the Senior Class, sixty-two.

No candidate will be awarded the degree of Bachelor of Theology who has not been in residence during his Senior year.

Requirements for Graduation

1. The degree of Bachelor of Theology will be conferred upon students who, in addition to college graduation, have completed at least 96 semester hours in the Seminary, including both Greek and Hebrew at least.
2. The Seminary Diploma will be granted to students who have two years of college credit, and have earned 90 semester hours in the Seminary, taking the subjects required of those receiving the B.Th. Degree, including Hebrew and at least two years of Greek.

The Seminary Year

The Seminary year is divided into two semesters of 18 weeks each.

Registration

Registration for the Seminary students will be held on September 16, 1932.

Examinations

Examinations, written or oral, are required in every department, and are held during the last week of each semester.

Students who do not pass the examinations are re-examined at the beginning of the next term. Failing on re-examination, students will be required to repeat the courses in which the failures occur.

Scholarship Grades

The quality of a student's work in a course shall be reported to the Registrar by the following grades: A, B, C, D, F, and I. A denotes excellent scholarship; B, good; C, fair; D, poor. Work reported as of grade D, cannot be raised to a higher grade by examination. F, indicates failure; a student receiving such a grade must repeat the course when next such a course is offered. A grade of I, indicates that the course is incomplete; work reported incomplete at the end of any semester and not made up by

the beginning of the corresponding semester of the following year can be given credit only by repetition in class.

Physical Exercises

The privileges of a well-equipped Gymnasium are extended to the Theological students. Young men desiring to take corrective exercises, or exercises for the general improvement of health, are at liberty to do so.

Prizes

Prizes are offered as an encouragement to students to close, constant, and patient study and application.

The S. A. Downer Prize in Old Testament History.—This prize is awarded to the student in the Junior Class making the highest per cent in Old Testament History.

The P. W. Russell Prize in Hebrew.—This is a prize of five dollars in gold offered to the member of the Junior Class making the highest grade above ninety in Hebrew for the year.

Expenses

Board, payable monthly in advance-----	\$12.00
Room rent, payable monthly in advance-----	6.00
Incidental Fee -----	11.50
Graduation and Diploma fee with degree-----	5.00

The incidental fee required of all students is divided as follows: Lecture fee—\$2.50, Registration fee—\$1.00, Student Paper fee—\$1.00, Library fee—\$3.00, Medical fee—\$3.00, Y. M. C. A. fee—\$1.00.

Religious Activities on the Campus

The students of the School of Theology have exceptional opportunities for doing work among the students of the College Department both directly and also through the Y. M. C. A., whose influence for good is far-reaching. Then there are devotionals in the chapel for thirty minutes, five days each week. There is also preaching at the University Church, 11 o'clock A. M., on each Lord's Day. Vesper services at 4 o'clock P. M.

It is clearly seen, therefore, that the students are richly blessed with opportunities for mental growth and spiritual development.

DESCRIPTION OF COURSES**HEBREW**

Hebrew Language and Literature.—The Hebrew language is studied from the physiological standpoint in order to lay the foundation for exegetical and critical study of the Old Testament. Having this object in view, such courses are offered as will make the student thoroughly familiar with the most important critical problems of the language of the Hebrews.

Hebrew 151

In this course the student is given a knowledge of, and is drilled in, some of the most important principles of the language. There is daily drill in reading, in written and oral exercise, and in transliteration. Also the acquisition of a working vocabulary is insisted upon. Fagnani's Hebrew Primer. Five hours weekly. Juniors. Required. First semester.

Hebrew 152

Genesis and Exodus.—Special attention is given to grammar, memorizing of words, oral translations. Harper's Elements of Hebrew is used as a textbook. Five hours weekly. Juniors. Required. Second semester.

Hebrew 221

First Samuel I—XX or Judges.—Rapid reading, and special attention is given to Hebrew Syntax. Davidson or Harper. Two periods weekly. Middle Class. First semester. Required.

Hebrew 222

First or Second Kings.—Davidson's or Driver's Teneses. Two hours weekly. Middle Class. Required. Second semester.

Critical and Exegetical Courses**Hebrew 321**

The Psalms.—This is an exegetical course on the Psalms, with special reference to their critical and theological questions. Two hours weekly. First semester. Two semester hours. Seniors. Elective.

Hebrew 322

Selections from Isaiah IX-LV.—In this course, the student studies the nature of prophecy and exegetical questions. Two periods weekly. Two semester hours. Second semester. Seniors. Elective.

GREEK**Greek 131-132**

New Testament Literature and Exegesis.—A knowledge of New Testament Greek is required for graduation. Students who enter without previous knowledge of Greek are required to take Elementary Greek in the School of Arts and Sciences. Those who have taken Greek in college are required to take Advanced Greek. The object in this course is to give the student facility in reading New Testament Greek. Reading from the Gospels and the Epistles. Special attention given to New Testament grammar and syntax. Three periods weekly. Juniors. Both semesters. Required.

Critical and Exegetical Courses**Greek 221-222**

Epistles to the Colossians and Ephesians.—Problems in the churches in Asia Minor and Paul's Christology will be studied. Time given to analysis and interpretation. Two periods weekly. Both semesters. Middlers and Seniors. Required.

Greek 321-322

Epistle to the Romans.—Introduction; analysis; terminology; interpretation. Two periods weekly. Both semesters. Middlers and Seniors.

English Exegesis 321-322

Galatians.—Introduction; interpretation; analysis; doctrinal points. This course designed for those who take the English course. Two periods each semester. Senior Year.

HISTORY

Ecclesiastical History.—The aim of this department is to give the student a good working knowledge of the development of Christianity through the centuries. Textbooks are used, with constant reference to other material and as far as possible the students are put in touch with source material.

History 121

Early Church History.—The period covered is to the time of Constantine. Special emphasis is laid on the condition of the world into which Christianity came, the spread of Christianity in the face of persecution, and the winning of its way to the heart of the Empire. Junior Year. First semester. Two periods a week.

History 122

Early Mediaeval Church History.—This course continues that of the previous term. Special emphasis is laid upon the development of theological thought in Ecumenical Councils, the spread of the Gospel in regions beyond the Empire, and the relation of Church and State. A portion of the Mediaeval History is considered, as far as time allows. Junior Year. Second semester. Two periods a week.

History 221

Pre-Reformation Church History.—The history of the Mediaeval Church is continued with special emphasis on the development of scholastic theology, the Babylonian Captivity, the Papal and the Reforming Councils. The preparatory movements leading to the Reformation are considered as well as the opening years of the Reformed period. Middle Year. First semester. Two periods a week.

History 321

The History of the Modern Church.—The course continues up to and past 1648 and to modern times; the development of Catholicism and the growth of various Protestant bodies are traced with reference to the political background and their present condition. Senior Year. First semester. Two periods a week.

History 211-212

The History of the Presbyterian Churches.—The restoration of Presbyterianism at the time of the Reformation is brought out and then its development in the lands beyond Europe, both in Colonial and later times.

History 111-112

Biblical Introduction.—In this course, many important questions are discussed. Three-fold division of the Old Testament as made by the Jews, the Old Testament in the Christian Church, the making of the New Testament, and the different Versions of the New Testament are all given careful consideration. One period weekly. Both semesters. Juniors. Required. Textbook, "Where Did We Get Our Bible?"

History 121-122

Old Testament History.—A knowledge of the historical material of the Old Testament is of real value to those who teach any portion of the Bible or who give religious instruction. The Old Testament records the religious growth of the Hebrew people from a stage of very simple religious development until they became fitted to be instrumental in conveying to mankind sound religious impressions regarding God, man, and the universe.

This course includes a study of the religious life of the Hebrews as recorded in the Old Testament: the religious customs, sacred places, persons, seasons, and rites. Their religious conceptions are considered together with their place in the religious life of Israel. This is studied throughout the Junior Year because of its importance as a part of theological education. The English Version of the Old Testament is used, with a textbook on the subject as a guide. Two periods weekly. Both semesters. Junior Year.

ENGLISH BIBLE

The courses are designed to discover the great religious and ethical insights and teachings of the prophets, poets, and teachers of the Old and New Testaments and their significance for present-day life.

Bible 121-122

The Prophets of Israel.—A survey of the prophetic literature of the Old Testament; the nature and function of prophecy; the place of prophecy in the development of Hebrew religion; the life and teaching of the great prophets and their significance for present-day life. Two hours credit. Juniors.

Bible 221-222

The Poets of Israel.—A survey of the poetic literature of the Old Testament; reading of Job, Proverbs, Psalms, Ecclesiastes, and other selections; study of their literary value; their religious and ethical significance for the present day. Credit two hours. Middlers.

Bible 321-322

The Teaching of Jesus.—The historical background of the New Testament; the teaching of Jesus and His followers; the significance of these for present-day life; survey and reading of the entire New Testament. Credit two hours. Seniors.

HOMILETICS

Throughout the whole Seminary course the work of this department is carried on with design of training men to become good preachers of the Gospel. Emphasis is laid on the necessity for spiritual preparation of the minister as well as the mental and physical. Evangelism is specialized.

Homiletics 121-122

Elementary Course in Preaching.—Junior Year. Two hours a week. First and second semesters. Preaching before the Theological Department. The work is accompanied by plan making. A textbook is used.

Homiletics 221-222

Intermediate Course in Preaching.—Middle Year. Two hours a week. First and second semesters. One hour practice preaching first and second semesters.

With a view to every minister being his own evangelist, the Intermediate Course in Preaching includes a course on Evangelism. A textbook is used.

Homiletics 321-322

Advanced Course in Preaching.—Seniors two hours a week, first semester. One hour practice preaching each semester. The course includes a study of style.

ELECTIVES

Homiletics 312

The Psychology of Preaching.—Designed as a course supplementary to previously offered courses in Homiletics, having for its aim, to inspire the student to “step on the gas and win the race,” rather than to dwell on study of how the auto is put together.

“Preaching Out of the Overflow,” Stinger, is the text used. One hour a week, Senior Year, second semester.

Hymnology 312

The Place of Sacred Poetry in History.—Ancient Hymns. Greek and Latin Hymns. German Hymns. Psalmody.

English Hymnology in its three periods. Proper use of Hymns and Psalms in public worship.

Textbook: Breed’s “History and Use of Hymns and Hymn Tunes.” One hour a week. Second semester of the Senior Year.

ELOCUTION

Elocution 111-112

Attention is given to Elocution in all practice preaching and to the conduct of public worship relative to reading Scripture, hymns, and public prayer.

Weekly preaching before the department.

SOCIOLOGY

Sociology 311

Christian Sociology.—One hour a week first semester the Senior Year is devoted to the church and the social question. A text is used in connection with lectures.

Attention is given to modern social danger points.

Sociology 311-312

Forward Mission Study.—The course in Forward Mission Study is designed to give a knowledge of the life, social customs and religions of the backward people of the globe. The aim of the study is to quicken spiritual impulse, widen life's horizon, and deepen interest in the cause of missions.

One period weekly. Both semesters. Middle and Senior Years. Most recent books published on Missions are used for texts.

THEOLOGY

Systematic Theology 121-122

Systematic Theology.—The aim of this course is to present in a systematic form the teachings of the Christian Religion. It is begun with the second semester of the Junior Year and is continued throughout the course. A standard textbook on the subject is used and a free discussion of every subject is encouraged and every means used to stimulate the student in his search for the truth and his preparation for its defense.

Nature and sources of theology, revelation and inspiration, the nature of God, the decrees of God, the works of God, the Trinity, and the Holy Spirit. Junior Year. Two periods weekly. Second semester.

Systematic Theology 241-242

Anthropology.—Middle year.

The origin, nature, and original state of man; the covenant of works; the fall; sin; inability and free agency. Four periods weekly. Both semesters.

Systematic Theology 321-322

Soteriology.—Senior Year.

The historical antecedents of redemption; the atonement; vocation; regeneration; faith; justification; sanctifi-

cation; means of grace; the Word, the sacraments and prayer.

Eschatology.—A consideration of the end of all things here. Two periods weekly. First and second semesters.

EVIDENCES OF CHRISTIANITY 111

Evidences of Christianity.—Of all the religions which have challenged the faith of man, Christianity is the only one that approaches him as a reasonable being, offering credentials of Divine authority.

The Evidences of Christianity are the proofs by which its claim to be accepted as the revelation of the only true God are attested.

This course embraces a discussion of evidences in general and of moral evidences; the presentation of the various evidences—experimental, internal, external, collateral; that from the character of Christ, that from His resurrection, and that from the centering on Him of so many and so diverse proofs.

One period weekly. One semester. Junior Class.

CHRISTIAN ETHICS 222

Christian Ethics.—In this we have a study of the nature and contents of the Christian ethical ideal, including Old Testament ethics and New Testament Ethics, together with a comparison with non-Christian ideals, thus furnishing an argument for Christianity from its ethical system. It is a study of conduct according to the teaching of Jesus and the Christian Church, with the background of Hebrew and Greek ethics, and is considered in its relation to family life, to social and industrial problems. Two periods weekly. Middle Class.

Practical Theology

Pastoral Theology 321.—This course in Pastoral Theology deals with the methods whereby revealed truth is brought to bear upon the life of the individual, upon the church and the community. The pastor is considered in his relation to his parish, presbytery, denomination, and to other churches. Its purpose is to prepare the pastor for

the various spheres of usefulness claiming his service. His personal piety, his family life, his social manners, his intellectual habits, his pulpit presence, his relations to his congregation, to the community, to society, and his relation to the organization and activities of the church are given due attention. Two periods weekly. Senior year. One semester. Required.

Church Government 321.—This course in the Senior Year gives special attention to the Form of Government, Book of Discipline, and the Directory for Worship as the Administrative Standards of the Presbyterian Church. Also to the conduct of marriages, baptism, funerals, and other special occasions. Two periods weekly. Senior Year. One semester. Required.

Sacred Geography 222

The physical and geographical features of the Holy Land are studied, and a clear perception gained of the places where scriptural events occurred. Middle Year. Second semester. Two periods weekly. Required.

Philosophy of Religion 322

The aim here is to show that Christian Theism is the most tenable philosophy of life. Modern and anti-theistic theories are considered. Senior Year. Second semester. Two periods a week. Elective.

Biblical Archaeology 322

Excavations in Scriptural lands are more numerous now than ever before. The discoveries in Palestine, Egypt, Babylonia, Assyria, Asia Minor, and Greece have in many ways helped in the interpretation of the Bible.

The object of this course is to give briefly the bearing of these discoveries on some of the more important teachings of the Bible. Inscriptions on monuments, historic records running contemporaneously with the Scripture narratives, ancient tombs and catacombs with their inscriptions furnish confirmation of the Old Testament records. One hour a week. Senior Class. Second semester. Elective.
